ROSEDALE NURSERIES

Inc.

Eastview, N.Y.

First in Westchester

Howard C. Taylor, President

Telephone: PL easantville 2-1300

HOURS: 7:30 to 6 p.m. Mondays through Saturdays
9 to 5 p.m. Sundays, March 14, 1954 to July 4, 1954

EVERY Spring, and through Summer and Fall, there is a continuous Show at Rosedale.

For 55 years ROSEDALE NURSERIES have spared no effort to keep pace with every important development in gardening and home landscaping. Some of these developments we have pioneered ourselves.

This past year we have rebuilt and reorganized Rosedale's sales and service facilities. Additional sales personnel has been added.

Plants are ready-to-go when you visit us . . . no fuss. Your every garden need can be satisfied. We have the widest assortment in Westchester.

Scientific growing and handling assure that the stock you purchase from Rosedale will become established on your grounds more quickly, produce more and better blooms, fruit or foliage as the case may be. We sincerely believe Rosedale plants have a far better opportunity to thrive on your premises. All our plants are graded according to the highest horticultural standards.

You are cordially invited to visit ROSEDALE'S FLOWER SHOW . . . any day and every day from Spring through Fall.

No. 863

STATE OF NEW YORK

DEPARTMENT OF AGRICULTURE AND MARKETING

C. CHESTER DU MOND, Commissioner

CERTIFICATE OF INSPECTION OF NURSERY STOCK

THIS IS TO CERTIFY that the nursery stock of ROSEDALE NURSERIES, Inc. of EASTVIEW, County of WESTCHESTER, State of New York, has been duly examined in compliance with the Agriculture and Markets Law, and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until October 1, 1954, unless revoked before that date.

Dated Albany, N. Y., Aug. 31, 1953.

C. CHESTER DU MOND,
Commissioner

H. B. LITTLE,
Director, Bureau Plant Industry

All stock graded by American Ass'n of Nurserymen Horticultural Standards

Introducing

CONTAINER-GROWN NURSERY STOCK

Adopted from the West Coast for greater success with difficult-to-transplant (the lovely Cotoneasters and Fire-thorn) and out-of-season (Lilacs and Peonies in bloom) plants.

At the Nursery—Container is slit (left) with cutter (center) and tied (right) for transport home.

At Home—Simply remove the tie, spread the can sides (as started on the left), allowing the root and soil mass to be lifted out to the planting hole.

Containers insure controlled conditions resulting in fine fibrous roots on bushy, compact plants.

Your Landscape Architect's Plan for Your Home

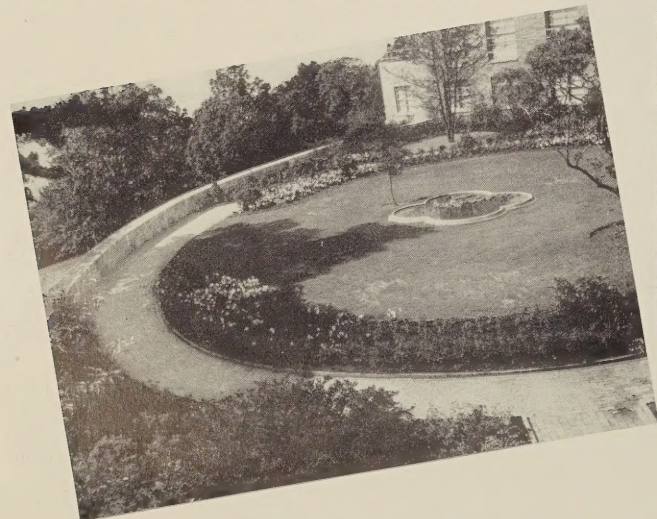

**Will receive most careful attention at
ROSEDALE NURSERIES**

We will be happy to cooperate with you or your Landscape Architect in the selection of the finest and most suitable material for your site according to his specifications.

Our planting foremen are recognized by experienced Landscape Architects as the best in the North-east—superior in workmanship, courtesy, cheerful cooperation and attention to detail and careful interpretation of the architect's plans.

Charm and Delightful Choice of Plant Material Make This Cottage Picture Complete. Designed by Mary Deputy Cattell.

Gardens of the Andrus Home, Hastings-on-Hudson, designed by Janet Darling-Innocenti Webel. A Rosedale Planting

Landscape Your Home and Grounds For Better Living

FIRST YOU PLAN . . . THEN YOU PLANT!

CONSULTATION AT ROSEDALE

Bring house plans, measurements, photos, etc. to the nursery. We will discuss your landscaping problems with you and make suggestions. **THERE IS NO CHARGE FOR THIS SERVICE.**

CONSULTATION AT YOUR HOME

Our landscape design representative will be glad to go over your premises with you to make suggestions for making your home setting more beautiful and distinctive—with special attention to living areas and climate control.

Plantings can be made to screen off undesirable views and create sound barriers to reduce traffic noises.

There is no charge for calling at your home and estimating costs for landscaping. However, if you desire a comprehensive detailed plan, there is a small "dividend" fee consistent with size of plan, location and time involved. Rosedale will be glad to give you information on this "dividend" plan.

YOUR SATISFACTION PARAMOUNT

Sound landscaping saves you costly mistakes. Rosedale landscaping is accomplished by highly trained specialists providing beauty and distinction, comfort, permanence and utility. No job is too small.

Phone or visit us now

Designed for permanency and charm

This delightful climate controlled terrace would be drab, indeed, in Winter without the interesting outline of plant material

This modern garden is not only colorful but has low maintenance feature eliminating small grass area

PLANTING

You may prefer to do your own planting. So many enjoy the actual planting operation and the fun of being real "dirt gardeners"—besides the additional bonus of saving labor charges. Planting instructions for all types of material are given in this catalog and our **GUARANTEE IS THE SAME**, whether you plant or we do it. **HOWEVER**, if you prefer to have Rosedale do the planting, you may do so with complete confidence. Our planting crews are trained to execute landscape plans carefully, neatly, courteously.

Simplicity in small home planting means low maintenance

Terrace treatment with numerous slow-growing broadleaved varieties provides a year-round background of green

EVERGREEN SHRUBS

(BROADLEAVED EVERGREENS)

This group of "double-duty" plants — evergreen qualities and beautiful flowers — offers the wise buyer more satisfaction during all seasons of the year than any other single group of plants.

Increasing numbers of these Evergreen Shrubs are used each year by home gardener and landscape architect alike, to provide colorful as well as evergreen effects in the well-planned landscape planting. Especially useful in foundation plantings.

We have an unusually fine selection of these flowering broadleaved evergreens and urge you to come to the nurseries to make a selection.

ALL BROADLEAVED EVERGREENS ARE B&B

For Planting Instructions, Please See Page 12

Abelia grandiflora • GLOSSY ABELIA

A splendid half-evergreen shrub, bearing dainty, bell-shaped pink flowers, July until frost. Glossy foliage will persist all Winter in a protected spot. M

4 in. pots.....	\$1.50	2 to 3 ft. hgt.....	\$4.00
		3 to 4 ft. hgt.....	\$6.00

AZALEAS

Azalea amoena (Evergreen). Small, box-like leaves on a neat, compact plant of rounded form. Covered with rosy-purple flowers in Spring. Leaves turn warm bronze in Winter. Very hardy. S

12 to 15 in. spr.....	\$4.00	18 to 24 in. spr.....	\$7.50
15 to 18 in. spr.....	5.00	5 to 6 ft. spr.....	45.00

A. hinodegiri (Evergreen). Probably the best of the Evergreen Azaleas for color, foliage, and form. A low, compact plant with handsome, waxy foliage turning bronze in Winter. The flowers are clear, fine red, borne in great profusion in May. May need some Winter protection in exposed locations or north of the nurseries. Our stock is thick and compact, and loaded with flower buds. S

8 to 10 in. spr.....	\$1.85	12 to 15 in. spr.....	\$4.25
10 to 12 in. spr.....	2.50	15 to 18 in. spr.....	5.25
		18 to 24 in. spr.....	\$7.50

A. hinomayo (Evergreen). Similar to Hinodegiri in form and foliage, but with soft, clear pink flowers in May. S

12 to 15 in. spr.....	\$4.25
-----------------------	--------

A. indica alba (Half Evergreen). A fine combination with Hinodegiri as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white. S

12 to 15 in. spr.....	\$4.25	18 to 24 in. spr.....	\$7.50
15 to 18 in. spr.....	5.25	2 ft. spr.....	9.00

Azalea kaempferi (TORCH AZALEA). Not completely evergreen but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon-pink in varying shades in this group of hybrids.

12 to 15 in. hgt.....	\$4.25	2 to 3 ft. hgt.....	\$9.00
18 to 24 in. hgt.....	7.50	3 to 4 ft. hgt.....	12.00

NAMED HYBRIDS:

Fedora. Fine deep pink.

18 to 24 in.....	\$7.50
------------------	--------

Othello. Birch red.

12 to 15 in.....	\$4.25
------------------	--------

Azalea Kurume, Sweet Briar. An outstanding hardy variety of evergreen Azalea. Rose-pink blooms in great profusion. S

12 to 15 in. spr.....	\$4.25	15 to 18 in. spr.....	\$5.25
-----------------------	--------	-----------------------	--------

A. Salmon Beauty. A fine carmine rose. One of the best of the Kurumes.

10 to 12 in.....	\$2.50	12 to 15 in.....	\$4.25
------------------	--------	------------------	--------

A. J. T. Lovett. This evergreen Azalea bears large, carmine blooms in late May throughout June. Especially useful for its late-blooming quality.

12 to 15 in. spr.....	\$4.25	15 to 18 in. spr.....	\$5.25
-----------------------	--------	-----------------------	--------

A. poukhanense (Half Evergreen). A broad plant of finest form with delicate lavender buds opening to extremely large, delightful pink blooms; sweetly scented. Growth is modest and it is positively hardy. We cannot recommend Azalea poukhanense too highly. M

12 to 15 in. spr.....	\$3.75	15 to 18 in. spr.....	\$4.25
		18 to 24 in. spr.....	\$5.25

A. Wilhelmina Vuyk. White. Much more hardy and generally reliable than *Ledifolia alba*.

12 to 15 in.....	\$4.25
------------------	--------

A. Rose Bud. Produces blooms in profusion, like miniature pink "Roses." Outstanding variety.

6 to 8 in.....	\$2.75
----------------	--------

NURSERIES inc.
EASTVIEW, N. Y.

DECIDUOUS AZALEAS

For convenience we list here other varieties of Azaleas which although not evergreen are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendrons with the lighter, more delicate, deciduous foliage.

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms usually in mid-June; delightful fragrance. A most desirable variety for mass plantings of native material. M

15 to 18 in. hgt.\$3.25 | 2 to 2½ ft. hgt.\$6.00
18 to 24 in. hgt.4.25 | 2½ to 3 ft. hgt.7.50

A. calendulacea (FLAME AZALEA). A brilliant orange and yellow flowering native shrub. Tall but slow-growing. Free flowering. F

18 to 24 in. hgt.\$4.25
2 to 2½ ft. hgt.6.00
2½ to 3 ft. hgt.7.50
3 to 4 ft. hgt.10.00

A. mollis Hybrids (CHINESE AZALEAS). A mass of large, bell-shaped flowers delicately shaded in orange and red tones on a low, compact shrub. The flowers which appear before the leaves develop, are probably the largest of all the Azaleas and the profusion of blooms is unequalled. Likes plenty of sun and develops slowly. M

12 to 15 in. hgt.\$3.75
15 to 18 in. hgt.5.00
18 to 24 in. hgt.7.50

A. mucronulata. Most worthwhile variety for planting in front of Forsythias, as it blooms at same time and color combination is most striking. Lavender-pink. F

2 to 2½ ft. hgt.\$7.50
2½ to 3 ft. hgt.9.00

A. nudiflora (PINXTERBLOOM or WILD HONEYSUCKLE). This lovely, native Azalea is known to all who have tramped woodlands in May. Fragrant pink. F

18 to 24 in. hgt.\$4.25
2 to 3 ft. hgt.6.00
3 to 4 ft. hgt.7.50

A. n. rosea (DOWNY PINXTER AZALEA). Sometimes confused with *A. nudiflora*, but is harder and deeper in coloring. Very fragrant, rosy-pink flowers. Prefers half-shade and grows in either acid or lime soil. F

3 to 3½ ft. hgt.\$7.50 | 4 to 5 ft. hgt.\$15.00
3½ to 4 ft. hgt.10.00 | 5 to 6 ft. hgt.\$17.50 to 20.00

A. vaseyi (PINKSHELL AZALEA). Shell-pink flowers in May cover the entire plant and make a striking picture. Very lovely. F

18 to 24 in. hgt.\$4.25 | 2 to 2½ ft. hgt.\$6.00
2½ to 3 ft. hgt.\$7.50

AZALEA HINODEGIRI

\$50.00 per 100

6 to 8 in., B&B.1.50
10 to 12 in., B&B.3.00
15 to 18 in., B&B.5.00

MOUNTAIN LAUREL

18-24 in. \$3.50

See page 7

COTONEASTERS

Cotoneasters are of high value for landscape plantings; vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit for decorative effect. They do not transplant as readily as some shrubs and must be handled carefully during the transplanting operation. However, in an open situation, they generally prove to be very hardy throughout northern United States. The interesting branching habits, both the low, sprawly types and those with arching branches, are decorative all year. Excellent for flower arrangements. All our Cotoneasters are container-grown.

Cotoneaster adpressa. Very slow-growing and dwarf in habit thereby giving interesting contours to make one of the most unusual Cotoneasters. Very tiny colorful berries nestle against glossy green leaves. S 12 in. . . . \$2.75

C. apiculata. Spreading habit, similar to horizontalis, but a little more mounded and with larger berries. M
12 in. . . . \$2.75 | 15 in. . . . \$3.50

C. dielsiana. Fairly upright, arching branches, shiny dark green leaves and red fruit. A valuable addition to any shrub group. S 15 to 18 in. . \$4.25

C. Franchetti (FRANCHET COTONEASTER). Upright, dense shrub with wide spreading branches; small pink flowers in June with a tremendous crop of orange berries in September. Foliage gray-green. F
15 to 18 in. hgt. . . . \$4.25
18 to 24 in. hgt. . . . 5.75

C. Henryana (HENRY COTONEASTER). A graceful shrub of drooping habit with reddish foliage. Bears an abundance of red-berried clusters in Fall. Fine for a slope. F
15 to 18 in. hgt., 6 in. pots. \$4.25
18 to 24 in. hgt. . . . 5.75

C. Horizontalis (ROCK COTONEASTER). A creeping form with very low, almost horizontal branches bearing a profusion of bright red berries. Especially effective fruiting variety for the rockery. M
12 to 15 in. spr. . . . \$2.75
15 to 18 in. spr. . . . 3.50

COTONEASTER HENRYANA Traces Interesting Winter Pattern on Masonite Fence

ILEX CRENATA, One of the Most Useful of All Landscape Plants, Is Grown at Rosedale Nurseries. Photographed in One of Our Fields, July, 1953, During the Height of Record-breaking Heat Wave

18 to 24 in. hgt. \$7.50 | 2½ to 3 ft. hgt. \$12.00 | 3½ to 4 ft. hgt. \$20.00
2 to 2½ ft. hgt. 10.00 | 3 to 3½ ft. hgt. 15.00 | 4 to 4½ ft. hgt. 25.00

Ilex c. convexa (BOXLEAF HOLLY). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather. M

12 to 15 in. spr. . . . \$4.50 | 18 to 24 in. spr. . . . \$7.50
15 to 18 in. spr. . . . 6.00 | 2 to 2½ ft. spr. . . . 9.00

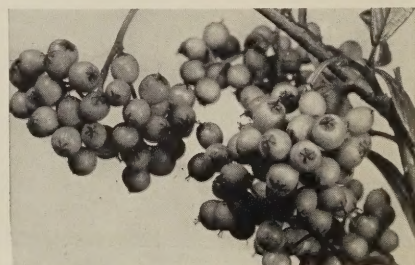

Ilex c. Green Island (Plant Pat. No. 817). Low, mounded form; an improved boxleaf Holly with broader foliage of deepest glossy green; hardy, dependable. Ideal for modern plantings. M
12 to 15 in. spr. \$4.50 | 15 to 18 in. spr. \$6.25 | 18 to 24 in. spr. \$8.50

ILEX crenata Stokes (STOKES HOLLY). (Plant Pat. No. 887.) A new dwarf, very slow-growing Holly of exceptional merit. Excellent for edgings, rock gardens, foundations as it does not outgrow its location. Unusually hardy. This wonderful plant has been acclaimed by the *Herald Tribune* Plant Jury as outstanding for 1952. S
6 to 8 in. spr. . . . \$1.75

Ilex glabra (INKBERRY). Bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in Fall; useful for shady and moist locations. M

18 to 24 in. hgt. \$5.00
2 to 3 ft. hgt. \$7.50 to 9.00

Ilex latifolia. Compact, evergreen shrub with shiny green foliage and black berries. An outstanding variety. Real hardy in Westchester. M
2 to 2½ ft. . . \$8.50
3 to 3½ ft. . . 15.00
3½ to 4 ft. . . 20.00
4 to 4½ ft. . . 25.00

BERRIES OF COTONEASTER

CAROLINA RHODODENDRON Seem to Grow in the Room in Modern Landscape Effect

MOUNTAIN LAUREL, HYBRID RHODODENDRON and an Unusual PINE
Create Colorful Summer and Interesting Winter Effects

ILEX—Continued

Ilex opaca (AMERICAN HOLLY). Well-known Christmas Holly, with red berries. Grows to a large tree, but may be sheared to a dense bush. Both male and female plants should be planted. We believe we have one of the finest collections of American Holly available and all plants have been trained and transplanted frequently.

Priced upon Selection

Kalmia latifolia **MOUNTAIN LAUREL**

The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality.

Most effective in group planting and must have acid soil. M

18 to 24 in. hgt.	\$3.50
2 to 2½ ft. hgt.	4.75
2½ to 3 ft. hgt.	6.00
3 to 3½ ft. hgt.	9.00
3½ to 4 ft. hgt.	\$12.00 to 15.00

Larger Sizes Available — Priced on Selection

BOXLEAF HOLLY (*Ilex convexa*)

Leucothoe catesbaei **DROOPING LEUCOTHOE**

Beautiful, dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early spring. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks and the cutting improves the plant.

M	15 in. spr.	\$4.50
	18 in. spr.	6.00

Pieris **ANDROMEDA**

Pieris Japonica (JAPANESE ANDROMEDA). Foliage and general form similar to floribunda. This handsome plant with its glossy leaves in various shades, however, bears its lovely white flowers in sprays of Lily-of-the-Valley-like clusters in very early Spring. M

18 to 24 in. hgt.	\$6.00
2 to 2½ ft. hgt.	7.50
2½ ft. hgt., heavy	9.00
2½ to 3 ft. hgt.	12.00

Pyracantha coccinea Lalandii **FIRETHORN**

This very popular semi-evergreen shrub has strong, slender branches from the ground with stubby side growths bearing innumerable orange-red berries. Amazingly beautiful in Fall. Very good effects when espaliered. F

15 to 18 in., container-grown	\$3.50
18 to 24 in., container-grown	6.00
2 to 3 ft. hgt., container-grown	7.50

CAROLINA RHODODENDRON and Other Evergreen Shrubs Give Lively Winter Effect (Photographed in January) and Spectacular Color in Summer

EVERGREEN SHRUBS—Continued

RHODODENDRONS

RHODODENDRONS require little care after they become established except possibly, some judicious pruning to keep them full and bushy, and yet they yield the loveliest flowers in early June or late May. They grow best in a light, somewhat acid soil, which is moist but well-drained. (They dislike "wet feet.") They do well in shade or partial sun and sometimes, unless protected in Winter, they may suffer some burning in windy areas.

Rhododendron carolinianum (CAROLINA RHODODENDRON).

A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft, rose-pink bloom. A great favorite. S

18 to 24 in. hgt. \$6.50
2 to 2½ ft. hgt. 8.50

R. catawbiense (CATAWBA RHODODENDRON). Native, free-flowering and the parent of most hybrids. Will grow in any soil that is free from lime; is very hardy and needs little attention. Large, round clusters of deep rosy-purple flowers, appearing in May or June—just after Carolina Rhododendron. Well budded plants. M

2 to 2½ ft. hgt. . \$8.50 | 3 to 3½ ft. hgt. \$15.00
2½ to 3 ft. hgt. . 10.00 | 3½ to 4 ft. hgt. . 20.00

PIERIS JAPONICA

Bushy 2-2½ ft. plants, \$7.50

Rhododendron maximum (ROSEBAY RHODODENDRON). Our native Rhododendron with white and light pink flowers. Nursery-grown plants. M

18 to 24 in. hgt. \$4.00
2 to 3 ft. hgt. 5.25
3 to 3½ ft. hgt. 7.50
3½ to 4 ft. hgt. 9.00
4 to 5 ft. hgt. \$12.00 to 15.00
5 to 6 ft. hgt. 15.00 to 20.00
6 to 7 ft. hgt. 25.00 to 35.00

RHODODENDRON HYBRIDS

These well-budded plants are offered in an unusually select list of varieties, and it is through these named varieties or hybrids (that is, grafted stock) that the gorgeous array of colors in Rhododendrons in June are obtained. Hybrids are noted, too, for their superior foliage.

Our Hybrid Rhododendrons are the healthiest we have ever had and we offer only those varieties which are hardy in this area. M

Sizes available are indicated by the letters as shown:
12 to 15 in.—A \$6.75 | 2 to 2½ ft.—D \$15.00
15 to 18 in.—B 10.00 | 2½ to 3 ft.—E 20.00
18 to 24 in.—C 12.50 | 3 to 3½ ft.—F 35.00
3½ to 4 ft.—G \$45.00

America. Unusually large clear red flowers. Very hardy. Midseason. A B C

Amphion. Clear glistening pink with white centers. Enormous trusses and excellent foliage; one of the best. A B C D

Boule de Neige. Snowy-white blooms in large clusters. Dwarf, mounded habit. Exceptionally hardy. C

Caractacus. A fine, rich purple-crimson flower of well-known variety. Blooms late. A B C

Catawbiense Album. Large blush blooms changing to purest white. A hardy, compact variety. Late. A B C D

Catawbiense Grandiflorum. Violet-rose, a real Rhododendron color. Exceptionally vigorous. A fine midseason variety. F G

Charles Dickens. Gorgeous shade of dark rich crimson. Handsome and very hardy. A B C

Cunningham's White. A real old hybrid; dwarf, compact plants. Occasionally flowers Spring and Fall. (Graded on spread). A B C D E

Dr. H. C. Dresselhuys. Glittering crimson blooms of unusual size. One of the best reds and one of the best hybrids. Midseason. A B C D

Edward S. Rand. Bright red flowers with a dark eye. Good foliage, low-growing. A favorite. A B C

English Roseum. Deep pink. An improved roseum elegans. A B C

12 to 15 in., \$6.75

EVERGREENS (Conifers)

Rosedale
NURSERIES Inc.
EASTVIEW, N. Y.

*Handsome and Suitable for Almost
Every Purpose*

EVERGREENS are most adaptable, offering a wide range of shapes, colors and uses—from low, spreading dwarf forms to fast-growing, tall, columnar types; from deep greens to blue-greens, gray-greens and golden forms. For uses in all imaginable types of situations—low foundations to high screenings, background plantings, or accent points.

All our Evergreens are of top grade, and of unusual vigor and fullness.

All Evergreens are expertly balled and burlapped (B&B), thereby preserving their excellent root systems.

We are proud of the excellent quality of our evergreens.

Planting instructions for B&B plants will be found on page 12.

We list below a few of the varieties and sizes growing in the nurseries. You are urged to make a personal selection at the nurseries.

ABIES

Abies homolepis (NIKKO FIR). Hardy, beautiful Fir from the Orient, with dark green needles, silvery on underside.

3 to 4 ft.	\$9.00
4 to 5 ft.	12.00

GREEK JUNIPER
(See page 10)

PFITZER and SARGENT JUNIPERS

JUNIPERUS • Junipers

All the Junipers are valuable ornamental plants — the upright species as single specimens or in groups and the low forms well adapted for rockery, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

Juniperus chinensis Keteleeri (KETELEER JUNIPER). This comparatively new variety is never affected by aphid or blight. It grows in pyramidal form and is of very pleasing light green color all year round. M

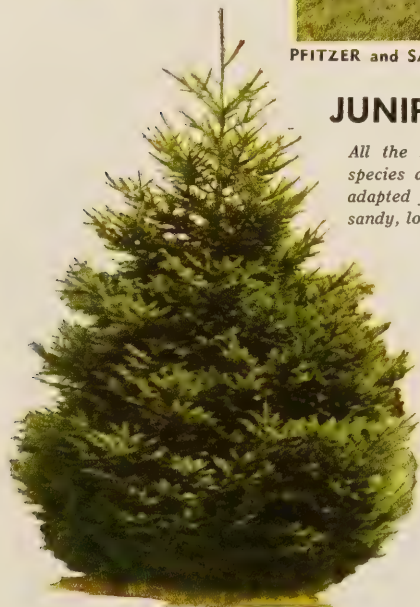

2½ to 3 ft. hgt.	\$6.00
3 to 3½ ft. hgt.	7.50

J. chinensis Pfitzeriana (PFITZER'S SPREADING JUNIPER). A handsome, spreading form with gray-green, plume-like foliage. Extremely useful as a filler in foundation or border plantings. Hardy and indifferent to drought. M

18 to 24 in. spr.	\$6.00
2 to 2½ ft. spr.	7.50
2½ to 3 ft. spr.	10.00
3 to 3½ ft. spr.	15.00

J. c. Pfitzeriana compacta glauca. A dwarf, compact type with blue-gray foliage. Excellent for banks, rock gardens or where low, spready plants are required. S

15 to 18 in. spr.	\$5.00
18 to 24 in. spr.	6.00

NORWAY SPRUCE 3 to 4 ft., \$7.50
See page 10

MUGHO PINE (See page 10)

CHAMAECYPARIS Retinospora

These thrive best in moist soils and situations not too much exposed to wintry gales. Should receive frequent shearing to keep them thick and attractive.

Chamaecyparis obtusa gracilis nana compacta (DWARF HINOKI CYPRESS). Very dwarf,

dark, green, irregular foliage. Extremely interesting for rockery. S

9 to 12 in. hgt.	\$5.00
12 to 15 in. hgt.	7.50
15 to 18 in. hgt.	10.00
18 to 24 in. hgt.	12.00

C. Plumosa (PLUME CYPRESS). Light green, soft, feathery, plume-like foliage. F

2½ to 3 ft. hgt.	\$4.75
3 to 3½ ft. hgt.	6.50
3½ to 4 ft. hgt.	8.00
4 to 4½ ft. hgt.	10.00

C. Plumosa Aurea (GOLDEN PLUME CYPRESS). Similar to Plumosa, except that the tips of growth are a golden color. F

2 to 2½ ft. hgt.	\$4.50
2½ to 3 ft. hgt.	6.00

WHITE PINE (Pinus strobus)
(See page 10)

EVERGREENS (Conifers)—Continued

HEMLOCK—A Rosedale Specialty—dense and compact

Photographed July, 1955

JUNIPERUS • Junipers—Continued

Juniperus chinensis Pfitzeriana Hetzi. More rapid-growing than the true Pfitzer. Intense, blue-gray foliage. Good for both formal and informal effects. M

15 to 18 in. \$5.00 | 18 to 24 in. \$7.00

J. c. Stricta (GREEK JUNIPER). Slow-growing and of upright, columnar habit. The gray-green foliage is a useful color accent. S

15 to 18 in. hgt. \$4.00 | 2 to 2½ ft. hgt. \$6.00

18 to 24 in. hgt. 5.00 | 2½ to 3 ft. hgt. 7.50

3 to 3½ ft. hgt. \$9.00

J. c. Sargentii. A low, trailing form, with deep green foliage. Best Juniper for rock gardens. S

12 to 15 in. spr. \$5.00 | 15 to 18 in. spr. \$6.00

18 to 24 in. spr. \$7.50

J. horizontalis plumosa. Dwarf and low-spreading with plummy foliage from center. Green in Spring, gray-green in Summer, heather tones in Winter. S

15 to 18 in. spr. \$4.25 | 18 to 24 in. spr. 5.50

PICEA • Spruce

Spruces will grow in almost any kind of moderately moist soil; are easily transplanted. Recommended for lawn specimens, screen or border plantings. Very popular as landscape material.

Picea Abies (NORWAY SPRUCE). Rapid growing, Christmas-tree type attaining great size; useful for windbreak or as single specimen. F

3 to 4 ft. \$7.50 | 4 to 5 ft. \$12.00

P. glauca densata (BLACK HILLS SPRUCE). Grows into a neat, compact, cone-shape with gray-green needles. Very hardy.

2 to 3 ft. \$4.75

P. Orientalis (ORIENTAL SPRUCE). Slow-growing, very graceful tree of dark, glossy foliage. Of great beauty and dignity. S

2 to 3 ft. \$7.50 | 3 to 4 ft. \$10.00

P. pungens (COLORADO BLUE SPRUCE). Very handsome. Very vigorous. A great favorite.

3 to 3½ ft. \$12.00 | 3½ to 4 ft. \$15.00

P. pungens glauca (KOSTER BLUE SPRUCE). Bluest of all. Regular and symmetrical, with somewhat pendulous branches. For best effect, use as an accent or specimen.

2½ to 3 ft. \$15.00

P. glauca conica (DWARF ALBERTA SPRUCE). Most distinctive of all Spruces. A dense, narrow pyramid with blue-green needles—a perfect miniature of the big Albertiana. Prefers slight shade in cool, moist, well-drained location.

12 to 15 in. \$4.75

PINUS • Pine

The stout root systems of Pines help them to obtain water in poor, sandy soils and dry situations, and they thrive in any good soil.

Pinus mugho mughus (DWARF MUGHO PINE). Low-mounded Pine, with short, stubby needles. Slow growing, attaining greater spread than height. S

15 to 18 in. spr. \$7.00 | 18 to 24 in. spr. \$9.00

P. Nigra (AUSTRIAN or BLACK PINE). Flourishes near seacoast or on high bleak hills or in dusty, smoky cities. F

2 to 3 ft. \$9.00

Pinus Strobus (WHITE PINE). Beautiful in every stage of growth. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily. F

2 to 3 ft. hgt. \$3.75 | 6 to 7 ft. hgt. \$18.00

3 to 4 ft. hgt. 5.00 | 7 to 8 ft. hgt. 25.00

4 to 5 ft. hgt. 8.50 | 8 to 9 ft. hgt. 35.00

5 to 6 ft. hgt. 14.00 | 9 to 10 ft. hgt. 40.00

10 to 12 ft. hgt. \$50.00

P. Strobus Pyramidalis. A pyramidal form of White Pine. Bushy.

4 to 5 ft. \$10.00 to \$12.00

PSEUDOTSUGA • Douglas Fir

Pseudotsuga taxifolia (DOUGLAS FIR). This handsome tree with its gray-green foliage is very hardy and extremely ornamental at all stages of growth. Thrives in Canada and will endure both drought and cold. Some specimens are rich, deep green; others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and we will be glad to have you make your selection.

2 to 3 ft. hgt. \$5.50 | 7 to 8 ft. hgt. \$27.50

3 to 5 ft. hgt. 7.50 | 8 to 9 ft. hgt. 35.00

4 to 5 ft. hgt. 12.00 | 9 to 10 ft. hgt. 45.00

TAXUS • Yew

These rich, dark green Evergreens continue to be the favorites among the Evergreens. Their hardiness, their freedom from ills and their slow, rugged development make them deserving of their great popularity. Yews thrive best in a moderately sandy loam but will endure adverse soil conditions and shade. The many varied shapes and types of growth—upright columnar, pyramidal, dwarf, spreading, drooping—to mention just a few—make Yews suitable for almost any landscape requirements. They make the finest of all hedges. They stand heavy pruning well. Our selection of Yews is very extensive and of the finest quality. We list below some of the varieties and sizes which we have at the nurseries.

Taxus baccata repandens (SPREADING ENGLISH YEW). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique. Very desirable for low plantings. M

18 to 24 in. spr. \$8.00

T. cuspidata (SPREADING JAPANESE YEW). This dense, spreading form with its deep green foliage is very hardy. Especially useful near the house. M

18 to 24 in. spr. \$6.75 | 3 to 3½ ft. spr. \$16.00

2 to 2½ ft. spr. 9.00 | 3½ to 4 ft. spr. 22.50

2½ to 3 ft. spr. 12.00 | 4 to 4½ ft. spr. 27.50

T. media, Halloran, Thayeri, Wardi, densiformis—Same prices as *Taxus cuspidata* above.

Taxus cuspidata Capitata (UPRIGHT JAPANESE YEW). Upright tree form of *cuspidata*—a very desirable variety for foundation plantings. Excellent for hedge purposes. M

18 to 24 in. hgt. \$6.50 | 3½ to 4 ft. hgt. \$18.00

2 to 2½ ft. hgt. 8.00 | 4 to 4½ ft. hgt. 22.50

2½ to 3 ft. hgt. 12.00 | 4½ to 5 ft. hgt. 30.00

3 to 3½ ft. hgt. 16.00 | 5 to 5½ ft. hgt. 40.00

5½ to 6 ft. hgt. \$45.00

A few large specimens priced on selection

T. c. columnaris. A narrow, pyramidal form requiring a minimum of shearing. Dark green and very luxuriant. Fine for accent. M

5 to 5½ ft. hgt. \$30.00 | 5½ to 6 ft. hgt. \$35.00

6 to 7 ft. hgt. \$40.00

One of our fields of *Taxus Brownii* and *Hicksii* with *Hydrangea* in background

Spreading Yews developed to full density, ready-to-go this season. Photographed July, 1953, in one of our fields at Eastview

TAXUS • Yew—Continued

Taxus cuspidata, Moon's Columnar. A generally upright variety but usually having a spread very nearly equal to height. Its foliage is heavy and of deepest dark green. Hardy and slow in growth. Highly recommended. S 3 to 3½ ft. hgt. \$25.00
3½ to 4 ft. hgt. \$30.00 | 4 to 4½ ft. hgt. \$35.00

T. c. nana (DWARF JAPANESE YEW). Dwarf, compact and low-spreading in habit. Very hardy. Because of its slow-growing nature, it is especially useful in foundation plantings, for it will not outgrow its location. 12 to 15 in. spr. \$4.25 | 18 to 24 in. spr. \$9.00
15 to 18 in. spr. 5.75 | 2 to 2½ ft. spr. 14.00

T. media Brownii (BROWN'S YEW). This rounded, full-centered type of compact Yew is our very best type for hedges, where medium height and considerable fullness is desired. Our stock of this variety is especially fine. M 15 to 18 in. spr. \$4.75
18 to 24 in. spr. \$6.75 | 2½ to 3 ft. spr. \$12.00
2 to 2½ ft. spr. 9.00 | 3 to 3½ ft. spr. 16.00

Taxus media Hatfieldii (HATFIELD YEW). Finest upright Yew, making the finest of hedges of all the Yews, we believe. Especially useful, for it holds its form almost without trimming. M

15 to 18 in. hgt. \$4.95	2½ to 3 ft. hgt. \$12.00 to \$15.00
18 to 24 in. hgt. 6.50	3 to 3½ ft. hgt. 17.50 to 20.00
2 to 2½ ft. hgt. 8.50	3½ to 4 ft. hgt. 25.00 to 30.00

T. m. Hicksii (HICKS YEW). Exceptionally dark green needles and red berries which it grows in profusion, makes this one of the most interesting Yews. Upright, columnar in habit. Also useful as hedge material. M 18 to 24 in. hgt. \$5.00 | 3 to 3½ ft. hgt. \$12.50 to \$15.00
2 to 2½ ft. hgt. 7.50 | 3½ to 4 ft. hgt. 17.50
2½ to 3 ft. hgt. \$10.00 to 12.50 | 4 to 4½ ft. hgt. 22.50
4½ to 5 ft. hgt. \$25.00

T. m. Vermeulen. A dense-growing, upright, rather rounded, type of Yew. Slightly irregular in character, it makes an interesting addition to the landscape planting. Its extremely slow growth makes it even more valuable. S 3 to 3½ ft. hgt. \$35.00 | 3½ to 4 ft. hgt. \$45.00

THUJA OCCIDENTALIS NIGRA
3 to 4 ft. hgt., \$7.50

THUJA • Arborvitae

These ornamental Evergreen trees are favorites for formal gardens because of their regular symmetrical habit. Especially adapted for slender hedges and windbreaks where space is a factor.

Thuja occidentalis Boothii (BOOTH GLOBE ARBORVITAE). Dense, globe-shaped variety which maintains its shape without shearing. Foliage seagreen in Summer, bronze in Winter. Perfectly hardy, growing to about 3 ft. high. S

18 to 24 in. spr. \$4.50

T. o. nigra (DARK AMERICAN ARBORVITAE). An upright variety of deep, rich green. Especially useful in hedges and screenings. M

2 to 3 ft. hgt. \$5.50
3 to 4 ft. hgt. 7.50
4 to 5 ft. hgt. 10.00
5 to 6 ft. hgt. 12.00

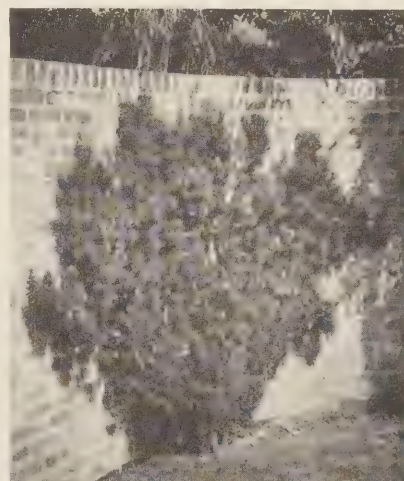

T. o. pyramidalis (PYRAMIDAL ARBORVITAE). The deep green color and upright, pyramidal form renders it conspicuous in contrast with other evergreens. Very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge. M

4 to 5 ft. hgt. \$8.00
5 to 6 ft. hgt. 10.00
5 to 7 ft. hgt. 12.00
7 to 8 ft. hgt. 14.00
8 to 9 ft. hgt. 16.00

T. orientalis Sieboldii (GOLDEN BIOTA). A dwarf, rounded plant with yellow to bronze foliage. Always retains its neat, compact form without training. S

15 to 18 in. hgt. \$3.75

We handle ALL Evergreens B&B—that is with soil on the roots. Therefore, we do not recommend shipping evergreens beyond our truck delivery area. Many varieties are dug and ready to go at the nursery. They can be taken by car and planted the same day.

Interesting effect obtained with espaliered
Taxus Hicksii

TAXUS BERRIES—A beautiful dividend

18 to 24 in. hgt.	\$5.50	5½ to 6 ft. hgt.	\$20.00
2 to 3 ft. hgt.	6.95	6 to 7 ft. hgt.	25.00
3 to 4 ft. hgt.	9.50	7 to 8 ft. hgt.	35.00
4 to 5 ft. hgt.	14.00	8 to 9 ft. hgt.	\$45.00 to 50.00
5 to 5½ ft. hgt.	16.00	9 to 10 ft. hgt.	65.00

T. Sieboldii. A dwarf Hemlock of pyramidal habit. Not generally seen in this area, yet entirely hardy. Very popular for home plantings. S

3½ to 4 ft. hgt.	\$15.00
4 to 4½ ft. hgt.	17.50
4½ to 5 ft. hgt.	25.00
5 to 5½ ft. hgt.	30.00

GLOBE ARBORVITAE

See page 11

HATFIELD YEW (Taxus Hatfieldi)

See page 11

TSUGA • Hemlock

Hemlocks can be used in many different ways and in each case they are eminently suitable and beautiful. As lawn specimens they attain great size and grandeur; by shearing, they may be used in foundation plantings and kept from overgrowing for years and years. For border or screen, they form a most naturalistic background. Hemlocks are practically immune to insects and disease.

Tsuga canadensis (CANADIAN HEMLOCK). A handsome, ornamental tree, growing 70 to 100 ft. high, but with shearing may be kept within any desired height. Wonderful for thick hedge. Its graceful, feathery effects are admired by everyone. F

HEMLOCK—A Rosedale super value

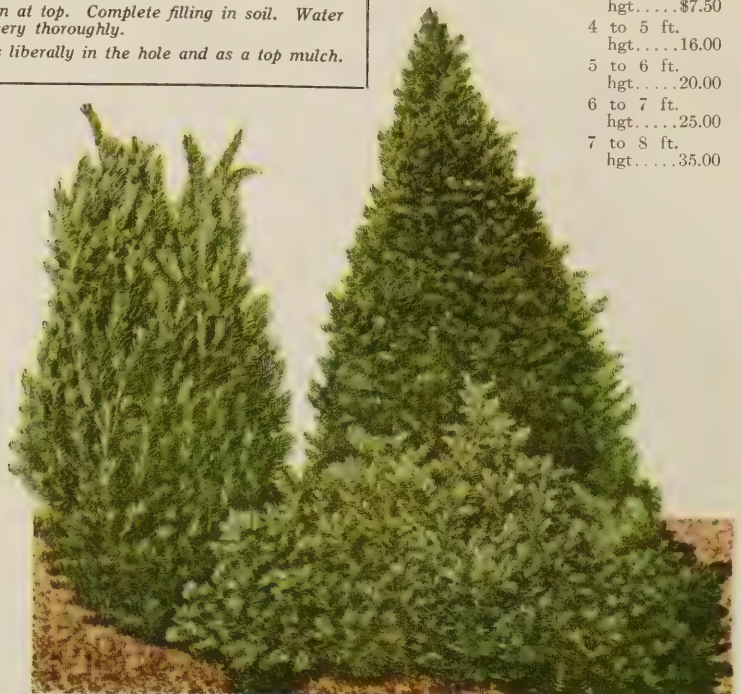

PLANTING SUGGESTIONS

As a general guide to planting B&B plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set the top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

Tsuga caroliniana (SOUTHERN HEMLOCK). Native to Southern mountains, yet perfectly hardy here in the North. A beautiful tree, with dark green foliage and a habit of growth which makes it distinctly different from the Canadian Hemlock. M

2 to 3 ft. hgt.	\$7.50
4 to 5 ft. hgt.	16.00
5 to 6 ft. hgt.	20.00
6 to 7 ft. hgt.	25.00
7 to 8 ft. hgt.	35.00

TAXUS HICKSII, CAPITATA and CUSPIDATA. All are most useful landscape plants

FLOWERING TREES

A Constant Delight All Year

GLORIOUS BLOOMS

FULL LEAFING—WELL SHAPED TREES

ATTRACTIVE FRUITS (The birds like them, too)

BRILLIANT FALL COLORING

You will find that Flowering Trees are a solid investment; increasing in beauty and value (which, of course, enhances the value of your property).

All the varieties listed below are hardy and chosen because of the complete satisfaction they have given—no matter whether planted as lawn specimens, in the border, among evergreens or "for shade." Quality of stock is of utmost importance at ROSEDALE.

Attractive Berries of MOUNTAIN ASH

for BR Material*

Cercis canadensis • RED BUD or JUDAS TREE

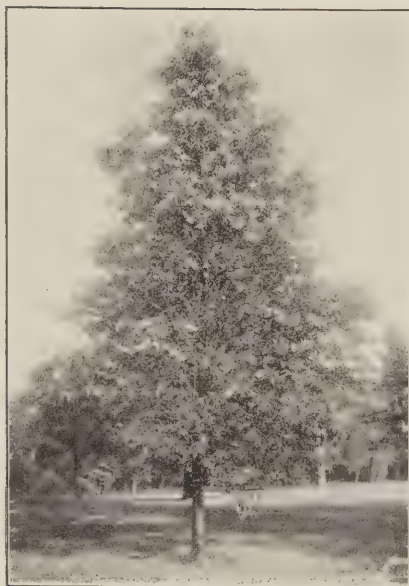

A large, shrub-like tree bearing myriads of brilliant purple-pink flowers in April before the leaves appear. Picturesque in form and a colorful delight in the early Spring landscape. Suitable in the shrub border or planted as a specimen. We offer the following fine stock for early transplanting. M

5 to 6 ft. hgt., BR..... \$5.00

PINK and WHITE DOGWOOD should be in every landscape scene

FLOWERING TREES—Continued

SOKKEL TREE (*Oxydendrum arboreum*)

3 to 4 ft. hgt., \$6.00

Cornus • DOGWOOD

Cornus florida (WHITE DOGWOOD). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. Foliage turns brilliant red in Autumn. Red berries. Attractive to birds. M

3 to 4 ft. hgt.	\$5.50
4 to 5 ft. hgt.	9.00
5 to 6 ft. hgt.	\$12.00 to 15.00
6 to 7 ft. hgt.	16.00 to 20.00
7 to 8 ft. hgt.	25.00

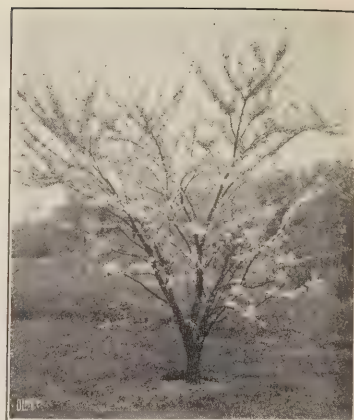

Heavier specimens priced on selection

C. florida rubra (PINK DOGWOOD). Similar to our native White Dogwood in habit and form but with masses of pink flowers Pink Dogwoods are extremely scarce and all sizes may not be available. M

2 to 3 ft. hgt.	\$6.50
3 to 4 ft. hgt.	9.00
4 to 5 ft. hgt.	16.00
5 to 6 ft. hgt.	\$20.00 to 25.00
6 to 7 ft. hgt.	25.00 to 35.00

C. Kousa (KOUSA DOGWOOD). This variety is characterized by white flowers in July—long after the leaves come out. Large, Strawberry-like crimson fruit. M

3 to 4 ft. hgt.	\$7.50
4 to 5 ft. hgt.	10.00
5 to 6 ft. hgt.	15.00
6 to 7 ft. hgt.	20.00
7 to 8 ft. hgt.	\$25.00 to 30.00
8 to 10 ft. hgt.	40.00
10 to 12 ft. hgt.	65.00

REDBUD (*Cercis*) (See page 13)

5 to 6 ft., \$5.00

Crataegus • HAWTHORN

Crataegus (*Crus Galli*) (COCKSPUR THORN). Single white flowers. Showy orange fruit. Its dark, shiny green leaves persist until late Autumn and then turn brilliant orange.

4 to 5 ft. hgt.	\$7.50
5 to 6 ft. hgt.	12.00
8 to 10 ft. hgt.	50.00
10 to 12 ft. hgt.	65.00
12 to 14 ft. hgt.	\$85.00 to 110.00

C. Phaenopyrum (WASHINGTON THORN). Upright tree of medium size with clusters of white blooms. Fruit, brilliant red. Ideal hedge form or will make a fine specimen tree. M

4 to 5 ft. hgt.	\$5.00
5 to 6 ft. hgt.	7.50
8 to 10 ft. hgt.	35.00
10 to 12 ft. hgt.	65.00
12 to 14 ft. hgt.	\$85.00 to 110.00

C. oxyacantha (ENGLISH HAWTHORN). Double pink, or double white flowers in late Spring. One of the finest. M

4 to 5 ft. hgt., BR.	\$5.00
5 to 6 ft. hgt., B&B.	7.50

C. oxyacantha Paulii (PAUL'S SCARLET). Double scarlet flowers] in late Spring. A favorite. M

4 to 5 ft. hgt., BR.	\$5.00
----------------------	--------

Laburnum Watereri • GOLDEN CHAIN

Large, pendant golden flowers hang from the twigs like Wisteria. Appears to be more hardy than *Laburnum vulgare*. M

5 to 6 ft. hgt.	\$7.50
6 to 7 ft. hgt.	10.00

ROSEDALE DOGWOODS are widely spaced for full top development

PAUL'S SCARLET HAWTHORN (*Crataegus oxyacantha Paulii*)

4 to 5 ft. hgt., BR, \$5.00

MAGNOLIA

Magnolia Soulangeana (SAUCER MAGNOLIA). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves. M

2 to 3 ft. hgt.	\$7.50
3 to 4 ft. hgt.	10.00
4 to 5 ft. hgt.	15.00
5 to 6 ft. hgt.	20.00
6 to 7 ft. hgt.	35.00
7 to 8 ft. hgt.	50.00

M. Soulangeana Alba Superba. Similar to *Soulangeana* but with larger, almost white flowers. More upright grower, with rounder leaves. M

3 to 4 ft. hgt.	\$10.00
4 to 5 ft. hgt.	15.00

M. stellata (STAR MAGNOLIA). Small, broad, rounding habit with star-shaped flowers of pure dazzling white. Hardest and finest of all. S

18 to 24 in. hgt.	\$7.50
2 to 3 ft. hgt.	10.00
4 to 5 ft. hgt.	25.00
5 to 6 ft. hgt.	\$30.00 to 35.00
6 to 7 ft. hgt.	40.00 to 45.00
7 to 8 ft. hgt.	45.00 to 75.00

Malus • FLOWERING APPLE

No matter what habit of growth you might want—whether upright and regular; full, spreading and mounded; or interestingly irregular—there is a Flowering Crab to please you. No one group of trees offers such a wealth of color, fragrance and fruit.

FLOWERING PLUM (*Prunus thundercloud*) **5 to 6 ft. hgt., \$5.00**

Block of WEEPING JAPANESE CHERRIES at the Nursery

- ↙ **Malus floribunda.** A single rose-pink variety bearing an abundance of fruit even when young. Very attractive to birds. Vigorous grower. M
 4 to 5 ft. hgt., BR.....\$4.75 | 5 to 6 ft. hgt.....\$15.00
 4 to 5 ft. hgt., B&B.....10.00 | 6 to 7 ft. hgt.....20.00

Malus micromalus (MIDGET CRAB). A fine, upright type with deep pink flower and yellow fruit. M
 5 to 6 ft. hgt., BR.....\$6.00 | 5 to 6 ft. hgt.....\$10.00

Malus Sargentii (SARGENT'S CRAB). A dwarf, bushy, hardy variety. Sparkling white flowers and an abundance of small, red fruit clinging till Spring. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background. S
 3 to 4 ft. spr.....\$10.00 | 4 to 5 ft. spr.....\$15.00

- ↘ **Malus Scheideckeri (SCHEIDECKER'S CRAB).** Very early, double bright pink blossoms. Bears waxy, yellow, cherry-like fruit. Distinctly upright. Slender. M
 5 to 6 ft. hgt., BR.....\$4.75 | 5 to 6 ft. hgt.....\$9.00
 6 to 7 ft. hgt.....\$12.00

Malus Spectabilis (CHINESE CRAB). A shapely tree, with good, shiny foliage and fragrant, semi-double, delicate pink flowers. Pale yellow fruit. M
 4 to 5 ft. hgt., B&B.....\$7.50 | 6 to 7 ft. hgt.....\$12.00
 7 to 8 ft. hgt.....\$15.00

MALUS FLORIBUNDA

4 to 5 ft., \$4.75

- ↙ **Malus adstringens Hopa.** Erect form, with symmetrical, purple-tinged leaves and large red, single flowers. The dark red fruit of this variety is good for jelly and is most decorative of all varieties. F

4 to 5 ft. hgt., BR.....\$4.75
 5 to 6 ft. hgt., BR.....6.00
 5 to 6 ft. hgt., B&B.....9.00
 6 to 7 ft. hgt.....12.00
 7 to 8 ft. hgt.....15.00

- ↘ **Malus Almey (ALMEY CRAB).** An outstanding, vigorous new variety with large, unfading, brilliant red blossoms with white markings at petal base, giving a star effect. F

4 to 5 ft. hgt., BR.....\$4.75
 5 to 6 ft. hgt., BR.....6.00
 5 to 6 ft. hgt., B&B.....9.00
 6 to 7 ft. hgt., B&B.....12.00

Malus Arnoldiana (ARNOLD CRAB). Semi-double pink flowers opening to white. Yellow fruit. Makes a dense mound of shrub-like growth. M

4 to 5 ft. hgt.....\$6.00
 5 to 6 ft. hgt., B&B.....12.00
 6 to 7 ft. hgt.....15.00

Malus atrosanguinea (CARMINE CRAB). Single crimson flowers in great profusion. Low-headed tree, spreading habit with slightly twisted branches. M

4 to 5 ft. hgt., BR.....\$4.75
 4 to 5 ft. hgt., B&B.....9.00
 5 to 6 ft., B&B.....\$12.00 to 15.00
 6 to 8 ft., B&B.....25.00 to 35.00

↘ **Malus Baccata (SIBERIAN CRAB).** Largest and first to bloom—usually at same time as Japanese Cherries. Pure white blossoms. Yellow fruit dappled with red. Upright. M

5 to 6 ft. hgt., BR...\$5.00

- ↙ **Malus Eleyi (ELEY CRAB).** A mass of crimson blooms; bronzy foliage turning bright red in Fall. Heavily laden with bunches of shining crimson fruit. M

4 to 5 ft. hgt., BR.....\$4.75

WISTERIA, TREE-FORM

5 to 6 ft., \$12.00 each

(See page 16)

FLOWERING TREES—Continued

CARMINE CRAB (See page 15)

4 to 5 ft., \$4.75

Prunus • FLOWERING CHERRIES

These are the Oriental Cherries which are so famous in Washington; they are easily grown and will produce the almost phenomenal display in Spring which so many journey to Washington to see.

Prunus serrulata Kwanzan. Outstanding in the double pink flowering Cherries. Flower buds rose red opening to clear pink "puffs" over 2 in. across. A large tree with wide spreading branches. M 4 to 5 ft. hgt., BR.....\$5.00
5 to 7 ft. hgt., B&B Heavy...\$12.00 to 15.00

P. Amanogawa. Semi-double, pale pink flowers in profusion; upright. 4 to 5 ft. hgt., BR \$5.00

P. s. Shirofugen. Double flowers, pink in bud, open white. An old favorite. M 4 to 5 ft., BR.....\$5.00

P. s. J. H. Veitchii (Fugenzo). Early Spring variety of great popularity with its cloud of double rose-pink blooms. F 5 to 6 ft. hgt., BE \$7.50

P. s. Mount Fuji (Shirotae). Unusually lovely. A pure white, double-flowering Cherry. F 4 to 5 ft. hgt., BR.....\$5.00

P. sieboldii Naden. A double, deep pink variety of upright growth. F 4 to 5 ft. hgt., BR \$5.00

P. subhirtella, Beni Higan. A small, upright tree with gay, bright pink, single blooms. F 4 to 5 ft. hgt., BR.....\$5.00

Oxydendrum arboreum SORREL TREE

A comparatively dwarf tree bearing an abundance of white flowers in Midsummer with foliage several shades of red and crimson in Fall. Seldom seen in the Fall without being admired. M

3 to 4 ft. hgt. \$6.00
4 to 5 ft. hgt. 9.00
5 to 6 ft. hgt. 12.00
6 to 7 ft. hgt. 15.00

FLOWERING PLUM

Prunus Thundercloud (PURPLE-LEAVED PLUM). The best of the flowering Plums, having cheerful, purple foliage and tiny pink flowers. A fine addition to your landscape picture.

5 to 6 ft. hgt., BR.....\$5.00
5 to 6 ft. hgt., B&B..... 7.50

FLOWERING CHERRY (Prunus Kwanzan)

4 to 5 ft., \$5.00

WEeping CHERRIES

Prunus subhirtella pendula (WEeping JAPANESE CHERRIES). A pendulous form of the well-known Flowering Cherries so admired at Washington, D. C. Bright pink flowers in tremendous profusion in early Spring. S

2 yr., 6 ft. stems, BR.....\$7.50
4 yr., 6 ft. stems, B&B..... 15.00

WISTERIA TREES

Wisteria sinensis. Racemes of flowers so cover the pendulous branches as to transform the head of the tree into a cloud of delicate coloring. (Wisterias prefer sunny locations and severe pruning enhances blooming). M

Pink, Purple, or White. 5 to 6 ft. \$12.00

WEeping CHERRY (Prunus subhirtella pendula)

6 ft. trees, \$7.50

Sorbus MOUNTAIN ASH

Sorbus Aucuparia (EUROPEAN MOUNTAINASH). Well-formed tree, with small leaves and bearing large clusters of orange-red berries. Grows especially well in this area. A great attraction to birds. M

6 to 8 ft. hgt., BR.....\$4.75
6 to 8 ft. hgt., B&B..... 9.00
8 to 10 ft. hgt., BR..... 7.50
8 to 10 ft. hgt., B&B..... 12.00

Styrax japonica JAPANESE STORAX

Pure white, sweet-scented little bell-shaped flowers hang all along the branches in June, creating a charming, graceful effect. A handsome, spreading type of large shrub or small tree with glossy leaves seldom growing taller than 15 feet. A good lawn specimen.

3 to 4 ft. hgt., B&B.....\$7.50
4 to 5 ft. hgt.....10.00

MOUNTAIN ASH

6 to 8 ft., \$4.75

SAUCER MAGNOLIA (Magnolia Soulangeana)

SHADE TREES

One of the First Requisites of Comfortable Living and Good Landscaping

Choose the varieties most suitable for your needs—most appealing to your taste. Are you seeking dense, cool shade or light lacy shade? A tall, erect-growing type or a more full-headed type? If you are in doubt, consult ROSEDALE'S trained nurserymen who can tell you about climate control through proper selection and placement of trees and plants.

We grow only those varieties which will thrive in this climate and we welcome your selection. In addition ROSEDALE Shade Trees are grown far enough apart in wide-spaced rows to permit lateral as well as upright growth.

ALL SHADE TREES ARE BARE ROOT EXCEPT AS MARKED BALLED AND BURLAPPED (B&B)

Planting Instructions: Bare Root Material—Please see page 12 B&B Material—Please see page 30

ACER • Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting; thrives well near the sea.

Acer palmatum atropurpureum (RED-LEAVED JAPANESE MAPLE). A comparatively dwarf Maple, slow in growth, and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well shaped. All B&B. S

15 to 18 in. \$6.00	2½ to 3 ft. \$15.00
18 to 24 in. 7.50	3 to 3½ ft. 20.00
2 to 2½ ft. 10.00	3½ to 4 ft. 25.00
4 to 5 ft.	\$35.00

A. platanoides (NORWAY MAPLE). Foremost of the Maples because of its regular outline, wide-spreading branches and deep, green foliage which is retained even after the first heavy frosts. Becomes a good shade tree quickly. F

1½ to 2 in. cal.	\$16.00
2 to 2½ in. cal.	22.50
2½ to 3 in. cal.	27.50
3 to 3½ in. cal., B&B.	50.00
3½ to 4 in. cal., B&B.	65.00

Larger sizes priced on selection

CRIMSON KING NORWAY MAPLE
6 to 8 ft., \$10.00

SILVER BIRCH
8 to 10 ft. Clumps, \$15.00

Acer platanoides Schwedleri (SCHWEDLER'S MAPLE). Glorious shades of scarlet and red in the Spring, turning to deep ruddy green in Summer. A beautiful tree of graceful habit. F

A. p. Schwedleri nigra (CRIMSON KING Norway Maple, Plant Pat. No. 735). Crimson King is a beautiful form of Schwedler's Maple. Brilliant crimson all through the Summer months. F

6 to 8 ft. \$10.00 | 6 to 8 ft., heavy, B&B. \$15.00

A. saccharum (SUGAR MAPLE). A beautiful tree of upright form. Attains a greater height than the Norway Maple, with brilliant red and yellow coloring in Fall. All B&B. F

1½ to 2 in. cal., B&B. \$20.00 | 2 to 2½ in. cal., B&B. \$27.50
2½ to 3 in. cal., B&B. \$35.00

BETULA • Birch

Betula alba (EUROPEAN WHITE BIRCH). Very graceful habit and creamy white bark even in the young trees. All B&B. M

6 to 8 ft. \$7.50 to \$10.00 | 3 to 3½ in. cal. \$50.00
3½ to 4 in. cal. \$65.00

B. populifolia (SILVER or GRAY BIRCH). Generally in clumps of two or more white trunks, rising gracefully from the ground. The small leaves quiver at the slightest breeze. All B&B. M

8 to 10 ft. \$15.00 | 12 to 14 ft. \$40.00 to \$50.00
10 to 12 ft. 25.00 | 14 to 16 ft. 50.00 to 75.00

Larger Specimens Priced on Selection

B. pendula gracilis (WEeping CUTLEAF BIRCH). You'll find grace, charm and beauty combined in this popular tree. Has silvery white bark, graceful drooping branches, and small, finely cut leaves. Emphasizes the compact lines of evergreens.

5 to 6 ft. hgt. \$7.50

SHADE TREES take ten to twelve years to grow and now are extremely scarce. We suggest no delay in ordering, as they assume even greater importance in landscaping the modern home.

NEW MORAIN LOCUST (See page 18) 6 to 8 ft., \$10.00

FAGUS • Beech

- **Fagus grandifolia** (AMERICAN BEECH). A handsome native tree with clean, gray-barked trunks. Prefers well-drained soil. M
7 to 9 ft. hgt. \$40.00 to \$50.00
- F. sylvatica** (EUROPEAN BEECH). For screen or hedge this Beech is ideal among deciduous material. Prunes well and may be kept within bounds. M
9 to 12 ft. hgt. \$40.00 to \$65.00
- F. sylvatica atropunicea** (RIVERS PURPLE BEECH). Similar to the European Beech except for its beautiful purple foliage. Handsome and dignified. S
3 to 4 ft. hgt. \$10.00
4 to 5 ft. hgt. 15.00

GINKGO

- Ginkgo biloba** (MAIDENHAIR TREE). One of the oldest things in the world is the Ginkgo tree. With its single straight trunk, and broad, conical head, it is extremely popular. The Ginkgo tolerates unfavorable city conditions and a wide range of soil conditions — withstands wind, and is virtually free from pests. Transplants easily. M
2 to 2½ in. cal., B&B. \$30.00
2½ to 3 in. cal., B&B. 35.00

GLEDTISIA • Honeylocust

- Gleditsia triacanthos inermis** (THORNLESS HONEYLOCUST). A truly lovely tree spreading a canopy of lace-like foliage. Free from insect pests, hardy, and long lived. Almost entirely free from thorns, but many less than older form. Something different in a shade tree with its light, airy race. F
1½ to 2 in. cal., B&B. \$16.00

GYMNOCLADUS DIOICA

Kentucky Coffee Tree

- A handsome and picturesque tree of easy culture. Glossy, green leaves with inconspicuous greenish-white hanging clusters of flowers, followed by long, attractive pods.
2 to 2½ in. cal. \$22.50 | 2½ to 3 in. cal. \$27.50

LIQUIDAMBAR • Sweet Gum

- Liquidambar styraciflua** (SWEET GUM). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. Star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects. All B&B. S
6 to 7 ft. hgt. \$16.00

NYSSA SYLVATICA

Sour Gum or Tupelo

- A small spreading tree which likes low ground and has the most brilliant Fall coloring of all Shade trees. S
4 to 5 ft. \$12.00 | 5 to 6 ft. \$15.00
6 to 7 ft. \$17.50

POPULUS • Poplar

- Populus italica nigra** (LOMBARDY POPLAR). The slender, upright form of growth makes these trees especially desirable for road plantings, property borders or along a stream. Quick-growing, they make a good screen when planted close together. The soft patter of the leaves as the Summer breeze ripples through them makes the Lombardy Poplar especially appealing. F
6 to 8 ft. \$3.50

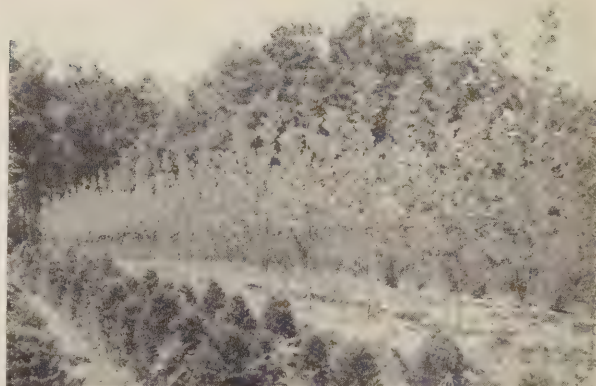

WEeping WILLOW (*Salix babylonica*)
6 to 8 ft., \$6.00

SALIX • Willow

- Salix babylonica** (WEEPING WILLOW). Long, stringy branches droop vertically to the ground and with the narrow, light green leaves create a soft, velvety texture. Grows rapidly especially when close to water. Makes a beautiful screening where needed in low, moist locations. F
5 to 6 ft. \$3.75 | 8 to 10 ft., B&B. \$7.50 to \$12.00
6 to 8 ft. 6.00 | 10 to 12 ft. 15.00 to 20.00
- S. b. Niobe** (GOLDEN TWIG WEEPING WILLOW). F
5 to 6 ft. \$3.75 | 6 to 8 ft. \$6.00
8 to 10 ft., B&B. \$7.50 to \$2.00

THE NEW MORAIN LOCUST (Plant Patent No. 836)

- A beautiful, new form of Locust — both thornless and seedless. This vigorous tree grows rapidly, creating light, airy shade quickly. Outstandingly hardy, but prefers sunny, exposed situations. A most desirable addition to our Shade Tree varieties.
5 to 6 ft. \$6.00 | 6 to 8 ft. \$10.00
8 to 10 ft. \$15.00

LONDON PLANE—An ideal street or shade tree

PLATANUS • Plane

- Platanus occidentalis** (AMERICAN PLANE, BUTTONBALL or SYCAMORE). This grand, native American tree attains great size and spread with open-branching, and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it for a rapid-growing shade tree in well-drained soil. F
2 to 2½ in. cal. \$22.50 | 3 to 3½ in. cal., B&B. \$50.00
2½ to 3 in. cal. 27.50 | 3½ to 4 in. cal., B&B. 65.00
- P. acerifolia** (LONDON PLANE). This native Sycamore is acclaimed for its charm, quick development, resistance to leaf spotting, tolerance of city smoke. Fine for street plantings. F
1½ to 2 in. cal. \$16.00 | 2 to 2½ in. cal. \$22.50

QUERCUS • Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their yearly growth equals that of almost any other species.

- Quercus borealis maxima** (RED OAK). A fine, all-round tree with widespreading branches. Colorful Fall foliage remains on all Winter. M
2½ to 3 in. cal. \$45.00 | 3½ to 4 in. cal. \$85.00
3 to 3½ in. cal. 60.00 | 4 to 4½ in. cal. 110.00
- Q. palustris** (PIN OAK). A superb tree, distinct in its character. The Pin Oak's graceful drooping branches support a mass of deeply lobed, sharply pointed leaves. Deep red in Fall. M
1½ to 2 in. cal., B&B. \$20.00 | 2½ to 3 in. cal., B&B. \$45.00
2 to 2½ in. cal., B&B. 27.50 | 3 to 3½ in. cal., B&B. 60.00
3½ to 4 in. cal., B&B. \$85.00

TILIA • Linden

- Tilia tomentosum** (SILVER-LEAVED LINDEN). Our best form of Linden, having clear, silvery foliage, not readily affected by aphids or beetles. Very desirable tree. M
1½ to 2 in. cal., B&B. \$16.00 | 4 to 4½ in. cal., B&B. \$85.00
4½ to 5 in. cal., B&B. \$110.00

GLADIOLUS

For Radiant Color in the Garden and Glorious Long-Lasting Floral Arrangements

There is nothing to equal the sturdy beauty of these colorful flower spikes all Summer long until frost. And with normal care, they withstand extreme conditions, and give a bountiful return.

FINEST VARIETIES IN HEALTHY, THRIP-FREE, TOP-GRADE BULBS—ALL LARGE SIZE

(Our experience with Gladiolus has proven the yield from this size bulb is not only equal to but better than that of old Jumbos. This saving we are proud to pass along to you.)

All Varieties:

10 for 75c. 25 for \$1.75 50 for \$3.25 100 for \$5.25

No less than 5 of a kind—ALL LABELED—sent postpaid anywhere

PICARDY. This rich salmon Glad continues to hold top rating. Most popular. Immense spikes.

JUNEBELLS. Beautiful, large white blooms—a little later in season.

HOPMAN'S GLORY. Pure golden yellow flowers on tall, straight spikes.

NEW EUROPE. Glowing bright red. Excellent color.

PAUL RUBENS. The best purple introduced. You will like this particularly.

SPOTLIGHT. Large, ruffled, deep yellow with scarlet blotch. Outstanding color and variety.

GENERAL EISENHOWER. A brilliant, clean shade of Begonia rose. Tall, straight; very popular.

LEEUWENHORST. Pure salmon pink. Beautiful flowers perfectly set on very tall, erect spikes.

GLADIOLUS produce quickly and abundantly

PLANTING

Plant in full sun 3 to 6 inches deep, depending upon the size of the bulb and texture of soil. Rich, well-drained loam with applications of fertilizer will encourage a more showy display of blooms. Bulbs should be dug in the late Fall after a killing frost—first cutting off the tops close to the ground. Dry and shake off soil.

Keep in a dry place until replanting the next Spring.

SPECIAL RAINBOW COLLECTION

Mixture of fine varieties for excellence of color; good for a showy border and for cutting

50 Large No. 1 Grade Glads—Only \$2.35

• GROUND COVERS •

PACHYSANDRA

Lonicera japonica Halliana • HONEYSUCKLE

Semi-evergreen ground cover with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently covers barren areas. F

2 year.....50c. each, \$5.00 per doz., \$37.50 per 100

Pachysandra terminalis • JAPANESE SPURGE

Most popular evergreen ground cover plant; spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. M

Rooted Cuttings.....\$6.00 per 100, \$50.00 per 1000

Vinca minor • MYRTLE

Dense, evergreen ground cover, with small, dark, green leaves on slender trailing branches. Blue flowers in late Spring. M

2 year, field-grown.....\$3.75 per doz., \$25.00 per 100

Vinca minor, Bowles Variety. Similar to V. minor in form and evergreen habit of growth but with lavender-blue flowers all Summer. S

2 year, field-grown.....\$4.50 per doz., \$35.00 per 100

ROSEDALE ROSES

To Bring You Color, Beauty, Restful Pleasure

**All Are Hardy Varieties—Especially Selected for Westchester Soils and Climatic Condition
Plant ROSEDALE ROSES with Confidence—All Plants Are Well Rooted and Well Budded**

Planting Instructions—Select well-drained soil; dig the hole large enough to accept roots easily; fill in half of the soil and tamp down; water thoroughly; fill in balance of soil, mixed with liberal quantity of Farmanure or Agrico Rose Food, heaping soil in 6-inch mound around plant. Level this mound when growth starts. It is really very simple—even for the most timid beginner. We suggest April planting but you may order early, and shipment will be made at the proper time. Outside our delivery area, dormant Roses are shipped by parcel post at our expense.

EVERBLOOMING HYBRID TEA ROSES

**CONTINUOUS BLOOMS IN PROFUSION FROM JUNE TO FALL —
SELECTED, 2-YEAR-OLD STOCK — FIELD-GROWN, NO. 1 GRADE**

\$1.35 each 3 or more, \$1.20 each 12 for \$12.00

Add 50c. each for Potted Roses later in the season

- Caledonia.** Large, WHITE, very double. Hardy. Striking.
Christopher Stone. Velvety SCARLET-CRIMSON. Very fragrant; very effective.
Condesa de Sagato. Coppery PINK TWO-TONE with golden tint. Raspberry fragrance.
Countess Vandal. BICOLOR, COPPERY-BRONZE and pink flooded with gold. Fine fragrance.
Crimson Glory. Intense DEEP VIVID CRIMSON. Wonderful fragrance.
Duquesa de Penaranda. BI-COLOR COPPER-APRICOT. Long-stemmed and very fragrant. Handsome.

- Edith Nellie Perkins.** TWO-TONE. Salmon-pink inside, coppery-pink outside. Large, profuse blooms.
K. A. Viktoria. PEARL-WHITE, lemon-yellow center. Very fragrant. Fine for accent.
Mrs. E. P. Thom. Deep CANARY-YELLOW. Unfading; fragrant. Beautiful form.
Pink Dawn. Deep ROSE-PINK opening to bright pink. Fragrant. Vigorous grower.
Poinsettia. Most brilliant RED. Rich, velvety, long lasting. Fragrant.
Soeur Therese. GOLDEN YELLOW, with carmine-tipped petals. Very large, semi-double.

SPECIALY SELECTED PATENTED HYBRID TEA ROSES

Each year we carefully study the stock of Patented Hybrid Tea Roses available and select the choicest ones to assure you, as best we can, of obtaining real pleasure from your Roses.

These particular varieties are notable for their exceptionally fine characteristics—beautiful form, dependable hardiness, outstanding vigor, delightful fragrances or wonderful colors. Make any selection you may wish—all are excellent both in quality of bloom and in health and cleanliness of stock. You will love your Rosedale Rose Garden.

Blanche Mallerin (Plant Pat. No. 594). Fragrant, well-shaped buds open to lovely, pure white blooms. Good grower, beautiful foliage. Considered tops in whites. \$2.00 each; three or more, \$1.75 each.

Charlotte Armstrong (Plant Pat. No. 455). Long, slender, cerise buds open to magnificent blooms; moderately fragrant; luxurious foliage. An outstanding favorite since 1941. \$2.25 each; three or more, \$2.00 each.

Chrysler Imperial (Plant Pat. No. 1167). Sole winner of 1953 All-America Award for Hybrid Tea Roses. Brilliant crimson of exquisite form, both in bud and full flower. Large, perfect, high-centered blooms of rich fragrance. Of breath-taking beauty. \$2.75 each; three or more, \$2.40 each.

Diamond Jubilee (Plant Pat. No. 824). Warm, buff-yellow blooms of huge size. Long-lasting and fragrant. Very profuse. \$2.00 each; three or more, \$1.75 each.

Forty-Niner (Plant Pat. No. 792). The most brilliant of all bicolored Roses; inside of petals is vivid red with outside chrome yellow. Mildly fragrant. \$2.50 each; three or more, \$2.20 each.

Fred Howard (Plant Pat. No. 1006). This All-America Winner for 1952 offers long, rich yellow buds, edged with enchanting delicate pink, opening to huge, fully double, buff yellow blooms. Particularly beautiful when fully open. Of robust vigor. \$2.50 each; three or more, \$2.20 each.

Helen Traubel (Plant Pat. No. 1028). This glorious 1952 All-America Winner and Gold Medal of Rome Winner varies from sparkling pink to luminous apricot, depending upon the weather. Tall, bushy, vigorous plant almost never without some buds or blooms of fine, spicy fragrance. Truly deserving of its international recognition as one of the finest Roses. \$2.75 each; three or more, \$2.40 each.

Show Girl (Pat. No. 646)

\$2.00 each; three or more, \$1.75 each

Specially Selected Patented Hybrid Tea Roses—Continued

- Mirandy** (Plant Pat. No. 632). Huge, full blooms of dark, glowing red; top All-America Winner; penetrating fragrance. \$2.25 each; three or more, \$2.00 each.
- New Yorker** (Plant Pat. No. 823). Fiery red blooms on long, stiff stems; very fragrant; exciting color, wonderful accent. \$2.00 each; three or more, \$1.75 each.
- Nocturne** (Plant Pat. No. 713). One of the finest reds, cardinal red with crimson shadings. All-America Award Winner, 1948. Longest, streamlined buds. \$2.00 each; three or more, \$1.75 each.
- Peace** (Plant Pat. No. 591). Rich, warm, yellow-ivory tones blend with delicate pink tints in these unusually large, long-lasting blooms. One of finest Roses ever produced; sole All-America Winner, 1946. \$2.50 each; three or more, \$2.20 each.
- President Eisenhower** (Plant Pat. Applied for). A brilliant, new red Rose. Large, deep red buds open to clear bright red; fragrant and continuous bloomer of good branching habit. \$2.50 each; three or more, \$2.20 each.
- Saturnia** (Plant Pat. No. 349). Unusual multicolor; combining shades of salmon, yellow and copper to produce a riot of color. \$1.75 each; three or more, \$1.50 each.
- Show Girl** (Plant Pat. No. 646). For the most beautiful, the most perfect, longest deep pink buds, plant this Rose. This is one of the finest pink Roses and its excellence for cutting has long since been recognized. Unusually flourishing in growth and bloom. Delicate fragrance. \$2.00 each; three or more, \$1.75 each.

FLORIBUNDA ROSES

(THE SHRUB TYPE OF ROSE)

Floribunda Roses are noted for their full bushiness and their great profusion of continuous blooms. Truly everblooming and especially effective for border and hedges. Plant them 2 to 3 feet apart.

We list here a selected group of Floribundas giving you the colors to aid in making your choice.

- Betty Prior** (Plant Pat. No. 340). Pink, very fragrant. Best for mass planting. \$1.50 each; three or more, \$1.30 each.
- Donald Prior** (Plant Pat. No. 377). Bright red; free flowering. \$1.50 each; three or more, \$1.30 each.
- Fashion** (Plant Pat. No. 789). Exquisite coral-pink suffused with gold; enchanting fragrance. \$2.00 each; three or more, \$1.75 each.
- Floradora**. Brilliant vermillion; prolific and continuous. \$1.50 each; three or more, \$1.30 each.
- Frolic** (Plant Pat. Applied For). New! Very bright pink, free-flowering, fairly large flowers give mass color effect. Repeat bloomer. Thick, bushy plant. \$2.25 each; three or more, \$2.00 each.
- Goldilocks** (Plant Pat. No. 672). Rich, clear, golden yellow of "Sweetheart Rose" type. \$1.50 each; three or more, \$1.30 each.
- Lilibet** (Plant Pat. No. 1209). 1954 Floribunda AARS Winner. Exquisite pink buds and blooms; excellent for small arrangements or corsages. Bushy plant of medium height. \$2.50 each; three or more, \$2.20 each.
- Ma Perkins** (Plant Pat. 1143). Enchanting new Floribunda and All-America Winner for 1953. This delightful Rose offers an intriguing range of pinks from deep coral-pink buds suffused with red, to warm pink flowers, finishing a shell pink. Unusually attractive throughout all stages. \$2.25 each; three or more, \$2.00 each.
- Masquerade** (Plant Pat. No. 975). A unique effect from its many colors on one plant, running the gamut from golden yellow and lemon to pink, red and even orange. A bewitching novelty. \$2.00 each; three or more, \$1.75 each.
- Pink Bountiful** (Plant Pat. No. 601). Soft, glowing pink in unusual profusion; hence the name. \$1.50 each; three or more, \$1.30 each.
- Pinkie** (Plant Pat. No. 712). Dainty, fragrant pink flowers in profusion on dwarf, bushy plant. \$1.75 each; three or more, \$1.55 each.
- Pinocchio** (Plant Pat. No. 484). Tiny, salmon-pink blooms. Dwarf, bushy. \$1.50 each; three or more, \$1.30 each.
- Summer Snow** (Plant Pat. No. 416). Beautiful, large white clusters in countless numbers. \$1.50 each; three or more, \$1.30 each.
- Vogue** (Plant Pat. No. 926). Lovely little flame-red buds, flared slightly at the end, become a mass of cherry-coral blooms—a wonderful display. Delightful spicy fragrance. 1952 All-America Winner. \$2.00 each; three or more, \$1.75 each.
- World's Fair** (Plant Pat. No. 362). Dark, velvety maroon blooms virtually hide this bushy plant. \$1.50 each; three or more, \$1.30 each.

Dr. J. H. Nicolas Climber (Pat. No. 457)

\$2.00 each; three or more \$1.75 each

Vigorous CLIMBING ROSES

With Abundant Blooms

A constant source of enjoyment on the home grounds. Plant on walls, fences or trellises. Plant 4 feet apart. These Rosedale Climbing Roses require little care.

- Aloha** (Plant Pat. No. 948). An excellent new climber, with big, double, coral-pink buds opening to rich, silvery rose-pink. Long-stemmed clusters create magnificent effect. \$2.50 each; three or more, \$2.20 each.
- Blaze**. The overwhelmingly popular scarlet climber. Vivid, double flowers. Plant takes on everblooming qualities as it matures. \$1.35 each; three or more, \$1.20 each.
- Dr. J. H. Nicolas** (Plant Pat. No. 457). Cupped, rose-pink blooms in clusters; flowers almost 6 in. in diameter. Very fragrant. \$2.00 each; three or more, \$1.75 each.
- High Noon** (Plant Pat. No. 704). Intense, clear unfading yellow; long-stemmed perfect buds. Everblooming, producing all season. All-America Winner. \$2.50 each; three or more, \$2.20 each.
- King Midas** (Plant Pat. No. 586). Deep yellow; red-flushed buds opening to clear yellow. Longest blooming yellow climber. \$2.00 each; three or more, \$1.75 each.
- Mary Wallace**. Delightful pink flowers with luminous sheen. Semi-double. Very large blooms; fragrant; a great favorite, long established. \$1.35 each; three or more, \$1.20 each.
- Mrs. E. P. Thom**. Climbing form of the favorite Hybrid Tea, with fine, clear, deep canary-yellow blooms. \$1.75 each; three or more, \$1.50 each.
- New Dawn**. Delicate pink blooms in great profusion all Summer into late Fall. One of the hardest climbers. \$1.35 each; three or more, \$1.20 each.
- Silver Moon**. Big, saucer-shaped moon-white flowers with brilliant yellow centers. Handsome foliage. \$1.35 each; three or more, \$1.20 each.

ROSA HUGONIS

Dainty, single yellow flowers on shrub-like plant. First to bloom in early Spring.

\$2.50 each

FLOWERING SHRUBS

Important to the Well-Designed Landscape — though Inexpensive

**Colorful Blooms —Thick, Green, Summer Foliage—Brilliant Leaf-Colorings in Fall—
Fascinating Branch Patterns in Winter**

Effective and Useful:

In beds, borders and hedges
As background for other planting

In groups
As Specimens

As Screen planting to bring
Summer privacy

FLOWERING SHRUBS introduce one of the most inexpensive ways of obtaining better landscaping. An unusually large number of varieties awaits you here at the nurseries. We list below some of them.

*All Flowering Shrubs Are Bare Root (BR) Except Where Indicated B&B
Planting Instructions: Bare Root, Page 30; B&B, Page 12*

S—Slow growing

M—Moderate growing

F—Fast growing

Acanthopanax Sieboldianum • ARLIA PENTAPHYLLA

An attractive, prickly shrub of dense growth. The lovely, bright green leaves of tropical appearance make it desirable for a hedge bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions. M 3 to 4 ft.\$1.75

Amelanchier canadensis

Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June. F

3 to 4 ft.\$2.50 | 6 to 8 ft...B & B. \$17.50 to 20.00

Aronia arbutifolia

BRILLIANT CHOKEBERRY

Handsome, red Autumn foliage and brilliant red berries on shrub of modest, upright growth. F

2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.50

AZALEAS, Deciduous Types

Both deciduous and evergreen types of Azaleas will be found listed under Broadleaved Evergreens.

Berberis Thunbergii • JAPANESE BARBERRY

One of the most frequently used hedge materials. Red berries in Fall. 15 to 18 in. 50c. ea., \$45.00 per 100 | 18 to 24 in. 80c. ea., \$55.00 per 100

**Berberis Thunbergii atropurpurea
REDLEAF BARBERRY**

Very similar to B. Thunbergii except for the ever-colorful leaves which are bright red in the Spring; purple-red in the Summer and blazing scarlet in Fall. Also berries heavily.

15 to 18 in. 75c. ea., \$70.00 per 100 | 18 to 24 in. 90c. ea., \$85.00 per 100

BRILLIANT CHOKEBERRY (Aronia)

2 to 3 ft., \$1.50

Berberis mentorensis (Plant Pat. 99)

A new variety of strong, rugged, upright growth. Able to withstand heat and drought. More beautiful than Japanese Barberry. Darkest green foliage.

12 to 15 in.\$0.90 | 15 to 18 in.\$1.10

Buddleja • BUTTERFLYBUSH

Tiny, delicate florets cover the graceful spires of the Butterflybush, so irresistible to butterflies. All are excellent as cut flowers in August and September. A delightful addition to the Shrub planting.

Empire Blue. We have seen no other Blue Buddleja that compares with this; lovely Aster blue

Charming. A glorious lavender-pink.

White Bouquet. Long, lovely, fragrant, glistening white sprays.

Royal Red. First truly red Butterflybush. Fragrant.

2 year.90c. each | 6 in. pots.\$1.50 each

SPECIAL COLLECTION—BUDDLEJA: One each of these 4 fine varieties, \$3.50

Callicarpa purpurea • BEAUTYBERRY

A graceful, spreading shrub bearing an abundance of small, pink flowers in August, followed by innumerable glittering, lavender-blue berries in dense clusters along the branches. F

2 to 3 ft.\$1.75

Calycanthus floridus • SWEET SHRUB

This lovely, old-fashioned shrub with its chocolate-colored blossoms is a must for every garden. It derives its name from the spicy fragrance of the leaves and bark.

18 to 24 in.\$1.25 | 2 to 3 ft.\$1.75 | 3 to 4 ft. heavy, B&B. \$3.50 to \$5.00

Caryopteris • BLUE MIST

Blue, mist-like blooms from August to frost. M

2 year plants.\$1.50 | Heavy, pot-grown.\$2.00

BARBERRY (Berberis Thunbergii)

18 to 24 in., \$55.00 per 100

FLOWERING SHRUBS—Continued

Rosedale
NURSERIES INC.
EASTVIEW, N. Y.

Chaenomeles • FLOWERING QUINCE

Chaenomeles lagenaria. Early blooming, deep crimson flowers; shiny, green foliage. M

18 to 24 in. \$1.25 | 2½ to 3½ ft. heavy. \$3.00 to \$5.00

CHAENOMELES HYBRIDS bear larger flowers in profuse clusters before the shining green leaves appear.

Afterglow (Plant Pat. 847). Double, snow-white gradually becoming soft rose. A distinct novelty. 3 to 4 ft.

Blood Red. Large, deep red. Early variety. 2 to 3 ft.

Candida. White. 1½ to 2 ft., 2 to 3 ft.

Cynthia. Soft, peach-pink. 2 to 3 ft.

Early Appleblossom. A delightful blend of light and deep pink. 1½ to 2 ft., 3 to 4 ft.

Enchantress. Luscious shell pink. 1½ to 2 ft.

Knaphill Scarlet. Vermilion-red flowers on a very low, mounded bush. 2 to 3 ft.

Pink Beauty. Clear pink. 18 to 24 in.

Pink Lady. Clear pink. 18 to 24 in., 2 to 3 ft.

Stanford Red. Tomato red. 1½ to 2 ft., 3 to 4 ft.

1½ to 2 ft. \$1.95 | 2 to 3 ft. \$2.50 | 3 to 4 ft. \$3.50

RED RUFFLES. Dazzling brilliant red; large. 18 to 24 in.—\$2.50

Chionanthus virginica • WHITE FRINGETREE

One of the most striking native small trees or shrubs. Handsome, glossy leaves and masses of loose panicles of feathery, snow white flowers in Mid-summer. F

3 to 4 ft. \$3.50 | 4 to 5 ft., B&B. \$5.00

Clethra alnifolia • SWEET PEPPERBUSH

Spikes of fragrant white flowers in late Summer, on upright, slow-growing shrub. Fine for naturalizing. S

18 to 24 in. \$1.25 | 2 to 3 ft. \$1.75

Cornus Mas • CORNELIAN CHERRY

Generally first shrub to show color in Spring when twiggy branches are covered in a yellow mist. Cherry-like fruit.

3 to 4 ft., B&B. \$3.50

FLOWERING QUINCE (Chaenomeles lagenaria)

Cotinus Coggryia • SMOKE TREE

A "mist" of grayish-purple created by fluffy clusters of flowers from June throughout the Summer, gives this small tree its name. F

18 to 24 in. \$1.50 | 3 to 4 ft. \$2.75 | 4 to 5 ft., B&B. \$4.00

Cotinus coggryia purpureus (BRONZE SMOKETREE). Purple-bronze leaved and purple-bronze plumed form. Especially handsome.

2 to 3 ft. \$2.50

Deutzia gracilis • SLENDER DEUTZIA

A dwarf variety, with small, white flowers that completely cover it in May. S

15 to 18 in. \$1.50 | 18 in., heavy. \$2.00

Enkianthus campanulatus

A handsome, large shrub which retains its shape without pruning. Bunches of tiny, red-veined, white, bell-like flowers. Foliage a brilliant red in Fall.

2 to 3 ft. B&B. \$5.00 | 3 to 4 ft., B&B. \$7.50

Euonymus

Euonymus alatus (CORKBARK EUONYMUS). A particularly striking shrub with corky, "winged" branches and scarlet foliage and berries in the Fall. F

18 to 24 in. \$1.75 | 3 to 3½ ft., B&B. \$5.00

2 to 3 ft. 3.50 | 3½ to 4 ft. specimens, B&B. 7.50

E. alatus compactus (BURNING BUSH). Similar to alatus in that it seems to be on fire because of its brilliant Fall coloring; however, much neater and slower in growth. Wonderful for specimen planting or may be used in the foundation or border for accent.

15 to 18 in. \$1.75 | 18 to 21 in. \$2.50

E. patens. Compact, shapely—ultimately 6 ft. tall. One of the finest; and easily grown. \$5.50

Exochorda Racemosa • PEARLBUSH

Slender, spreading shrub with long clusters of creamy white flowers, pearl-like in the bud. Grows to 10 ft. F

3 to 4 ft. \$2.50

Hamamelis vernalis • WITCH HAZEL

Irregular spreading shrub with large, oval leaves. Small, yellow flowers close to stem in November. Deep shape or full sun. M

3 to 4 ft. \$2.00 | 4 to 5 ft. \$3.00 | 4 to 5 ft., B&B. \$4.00

H. virginiana. Irregular, spreading shrub with large, oval leaves. Blooms with small yellow flowers close to stem in November. Thrives on deep shade or full sun.

3 to 4 ft. \$2.00 | 4 to 5 ft. \$3.00 | 4 to 5 ft., B&B. \$4.00

SWEET PEPPERBUSH (Clethra alnifolia)

FLOWERING SHRUBS—Continued

BURNING BUSH (See page 27)

15 to 18 in., \$1.75

Keep Surface Soil Loose
Water Thoroughly Twice Weekly

FORSYTHIA LYNWOOD GOLD

\$2.50 each

Forsythia

Forsythia intermedia, Spring Glory (PRIMROSE FORSYTHIA).

Truly the showiest Forsythia now known. The large, pale yellow flowers are of striking brilliance as Winter fades and Spring first appears. The masses of blooms are so crowded on the stems that the branches bow gracefully under the weight of their colorful burden. F

2 to 3 ft. \$1.25 | 3 to 4 ft. \$2.50
4 to 5 ft., B&B. \$4.50

F. intermedia spectabilis (SHOWY BORDER FORSYTHIA). A deeper, yellow form of semi-drooping character with the large flowers in great profusion. Long a favorite and very showy in group plantings.

2 to 3 ft. \$1.00 | 3 to 4 ft. \$1.35
4 to 5 ft., heavy, B&B. \$3.50

F. Lynwood Gold. A splendid new variety which originated in Ireland; very erect growing with branches virtually smothered with golden yellow flowers. Sensational. Limited supply.

Each. \$2.50

F. Suspensa (WEeping FORSYTHIA). This delightful form offers sweeping, arching branches to the ground—a fountain of color when in bloom.

2 to 3 ft. \$1.00

Hibiscus syriacus • ROSE OF SHARON

A rather erect and tall-growing shrub of neat form. Flowers beginning in August and lasting usually until heavy frost.

Excellent stock. M

Hibiscus syriacus anemonae-florus. Semi-double white with dark center.

3 to 4 ft. \$2.00

H. syriacus, Boule de Feu.

Double red.

3 to 4 ft. \$2.00

H. syriacus coelestis. Single,

blue; outstanding.

2 to 3 ft. \$1.25

3 to 4 ft. 2.00

H. syriacus, Jeanne d'Arc.

Double white.

3 to 4 ft. \$2.00

H. syriacus, Lady Stanley.

Double, bluish-white, splashed with deep pink.

3 to 4 ft. \$2.00

3 to 4 ft. heavy, B&B. 3.50

H. syriacus, Lucy. Double

lavender.

3 to 4 ft. \$2.00

H. syriacus paeoniflorus (PEONY "ROSE OF SHARON"). Semi-double white with carmine center.

3 to 4 ft. \$2.00

H. syriacus totus alba. Finest single white of all.

2 to 3 ft. \$1.25 | 3 to 4 ft. \$2.00

Heavy Specimens

Priced on Selection

BEAUTYBUSH (See page 29)

Hydrangea

Hydrangea arborescens (SUMMER HYDRANGEA). Large, pure white blooms in July and August. F

3 to 4 ft.\$2.00

H. macrophylla (GREENHOUSE HYDRANGEA). Bushy growth with pink or blue flowers in profusion, according to acidity of soil. F

5 year, heavy, B&B.....\$5.00

H. paniculata grandiflora (PEEGEE HYDRANGEA). The best known Hydrangea with immense, conical, pink and white blooms from July to September. F

2 to 3 ft.\$1.25

3 to 4 ft.1.75

H. p. grandiflora (PEEGEE TREE FORM). The tree form can stand alone or in groups and need not be supported. Immense blooms weigh the branches down, creating a weeping tree effect. An old-fashioned favorite. F

2 to 3 ft.\$2.00

3 to 4 ft. tree.....2.75

4 to 5 ft. tree, heavy, B&B.....5.00

H. Nikko Blue. Both hardy and beautiful, withstanding temperatures of 20 degrees below. Tops die down to ground in Winter but crowns regrow into bushy shrubs the next season. Luxuriant foliage; masses of blooms.

2 year.....\$2.50

Hypericum

Hypericum aureum (GOLDEN ST. JOHNSWORT). Golden-yellow flowers in July and August measure 1 to 2 in. in diameter. Dense, upright shrub of about 3 ft. Very hardy. S

2 to 3 ft.\$1.75

Hypericum Hidecote. Somewhat mounded in form of growth, with blue-green foliage. Delightful golden-yellow, Daffodil like flowers in profusion in Midsummer, the period when shrub blooms are generally few. This new, exciting shrub acclaimed by *Herald Tribune* jury as outstanding new shrub for 1952. S

2 year, heavy plants.....\$1.75

H. prolificum (ST. JOHNSWORT). A showy shrub of stiff, dense habit. Grows to 3 ft. Brilliant yellow flowers from July to September.

2 to 3 ft.\$1.75

Ilex verticillata • WINTERBERRY

A fine, native shrub with bright red berries practically all Winter. Upright habit with black bark and clean, attractive foliage. Plant in groups for production of berries. M

2 to 3 ft.\$1.50 | 4 to 5 ft., B&B.....\$4.00

3 to 4 ft.2.75 | 5 to 6 ft., B&B.....5.00

6 to 7 ft., B&B.....\$7.50

Kolkwitzia amabilis • BEAUTYBUSH

A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly. M

2 to 3 ft.\$1.75 | 3 to 4 ft.\$2.50

4 to 5 ft., heavy, B&B.....\$5.00

FLOWERING ALMOND (Prunus) See page 30

2 to 3 ft., \$1.75 each

PHILADELPHUS, Minnesota Snowflake
(New Double Mockorange)

2 to 3 ft., \$1.75 each

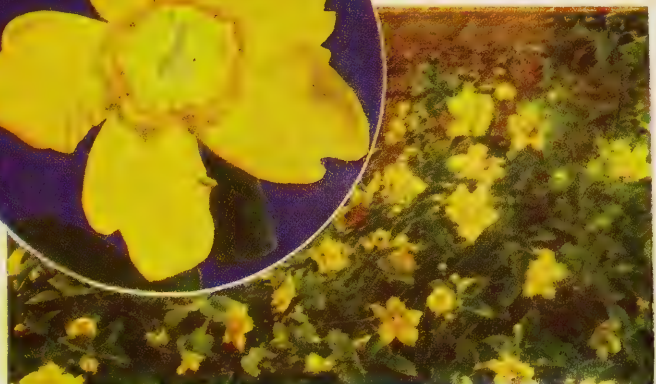

BUDDLEJA CHARMING, EMPIRE BLUE, ROYAL RED

**HYPERICUM
HIDCOTE, Gold**

\$1.75 each

Ligustrum • PRIVET FOR HEDGES

Ligustrum amurense (AMUR PRIVET). True, hardy, upright variety with lustrous leaves. Good for quick-growing screen; plants will attain about 15 ft. in height. F

2 to 3 ft. \$4.75 per doz., \$32.50 per 100

L. ovalifolium (CALIFORNIA PRIVET). The form most usually used for hedges. F

18 to 24 in. \$3.00 per doz., \$20.00 per 100

2 to 3 ft. 4.50 per doz., 30.00 per 100

3 to 4 ft. 6.00 per doz., 40.00 per 100

L. regelianum (REGEL PRIVET). A low, spreading form—almost horizontal. S

2 to 3 ft. \$1.50 | 3 to 3½ ft. \$2.25

Lindera benzoin • SPICEBUSH

Native shrub with fringed yellow flowers in early Spring. Delicious, aromatic leaves and twigs. F

2 to 3 ft. \$1.75

ROSE OF SHARON in the Nursery

TREE HYDRANGEA—Fully developed in the nursery row

Prunus glandulosa
FLOWERING ALMOND

Profuse, double rosettes cover bare stems in late April or early May. Deep pink or white. M

2 to 3 ft. \$1.75 | 3 to 4 ft., B&B. \$3.50

HONEYSUCKLE (*Lonicera Zabellii*)

3 to 4 ft., \$2.00

Lonicera • HONEYSUCKLE

Lonicera Korolkowii Zabellii. A shrub of medium growth, bearing abundance of bright red blossoms and bright red fruit. M

3 to 4 ft. \$2.00 | 4 to 5 ft., B&B. \$3.50

5 to 6 ft., B&B. \$5.00 to \$7.50

Philadelphus • MOCKORANGE

Philadelphus coronarius (SWEET MOCKORANGE). Extremely fragrant variety of Mockorange. White blooms in May and June. F

2 to 3 ft. \$1.50 | 5 to 6 ft., B&B. \$5.00

4 to 5 ft., B&B. 3.50 | 6 to 8 ft., B&B. 7.50

P. Minnesota Snowflake (Plant Pat. No. 538). This wonderful addition to the Philadelphus family produces a profusion of large, very double, pure white flowers of some fragrance. Truly "snowy" in effect. Bushy, shapely shrub. M

2 to 3 ft. \$1.75 | 3 to 4 ft. \$2.75 | 4 to 5 ft., B&B. \$3.75

5 to 6 ft., B&B. \$5.00 | 6 to 7 ft., B&B. \$7.50

P. virginialis (DOUBLE MOCKORANGE). Fine, double-flowering variety which blooms profusely. Fragrant. M

2 to 3 ft. \$1.50 | 3 to 4 ft. \$2.50 | 4 to 5 ft., B&B. \$3.50

Photinia Villosa • CHRISTMASBERRY

A large, interesting shrub. The glossy foliage turns brilliant red in Fall. Brilliant red berries persist into Winter.

4 to 6 ft., B&B. \$4.00 to \$6.00

Rhodotypos kerrioides
JETBEAD

Small, shapely shrub bearing white flowers in June and shiny, black, bead-like berries in Fall. Handsome foliage. Good in shade. M

2 to 3 ft. \$1.75

Salix caprea
PUSSY WILLOW

Popular shrub for early Spring effect. Does well in dry as well as wet places. F

4 to 6 ft. \$2.00

Symphoricarpos
SNOWBERRIES

Symphoricarpos albus laevigatus (SNOW-BERRY). Pink flowers and white berries in profusion. Thrives in shade and is excellent for hillsides. F

2 to 3 ft. \$1.25 | 3 to 4 ft. \$2.00

S. orbiculatus (CORALBERRY). Bears clusters of small red berries which remain most of the Winter. F

3 to 4 ft. \$1.25

Planting Suggestions
for
Bare Root Material

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Farmasure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem).
4. Cover roots with soil mixed with liberal amounts of Farmasure, firming soil with feet.
5. Complete filling hole with soil, leaving catch basin effect at top to hold water.
6. Water THOROUGHLY twice a week.

2 to 3 ft..... \$1.50 | 4 to 5 ft., B&B..... \$4.00
3 to 4 ft..... 2.50 | 6 to 7 ft., B&B..... 6.00

S. Thunbergii (THUNBERG SPIREA). Semi-dwarf, with very fine foliage and small white flowers. Dense. M
2 to 3 ft..... \$1.50

S. Vanhouttei (VANHOUTTE SPIREA). Ever-popular with its abundance small white flower in clusters. F
2 to 3 ft..... \$0.95 | 3 to 4 ft..... \$1.50

Stephanandra flexuosa • LACE SHRUB

Splendid shrub of erect habit, with cut foliage. Striking at all seasons.
2 to 3 ft..... \$1.50

Tamarix pentandra • TAMARISK

A charming 5 to 7 foot shrub with lacelike, silvery-blue foliage and large clusters of bright pink flowers giving a pink and silver mist effect in July. F
2 to 3 ft..... \$1.50

HIGHBUSH CRANBERRY (Viburnum americanum)

VIBURNUMS

ESPECIALLY DESIRABLE SHRUBS FOR LANDSCAPE USE

This group probably offers more desirable varieties for landscape use than any other family of Shrubs.

Viburnum Americanum (AMERICAN CRANBERRYBUSH). A shrub of rather loose growth particularly desirable for its scarlet berries from early August well into the Winter. Brilliant orange and red Fall foliage. F 3 to 4 ft. \$1.50 | 4 to 5 ft., B&B. \$3.50

Viburnum Burkwoodi (BURKWOOD VIBURNUM). Often called an improved Viburnum carlesii—differing in growth, foliage and time of bloom, blooming earlier; growth is vigorous and foliage glossy. Very fragrant, creamy-white flowers. S 2 to 3 ft., B&B. \$7.50 | 3 to 3½ ft., B&B. \$9.00 | 3½ to 4 ft., B&B. \$12.00

Viburnum Carlesii (FRAGRANT VIBURNUM). Most fragrant of all flowering shrubs. A single blossom will scent an entire room. Fairly dwarf and slow in growth, it eventually attains 5 to 6 ft. in height. Creamy white blooms in considerable profusion. S 2 to 2½ ft., B&B. \$6.00 | 2½ to 3 ft., B&B. \$7.50

Viburnum dentatum (ARROWWOOD). Bushy shrub with white flowers, blue berries. Fine for shade. F 2 to 3 ft. \$1.50 | 3 to 4 ft. \$2.50

Viburnum dilatatum (LINDEN VIBURNUM). Finest of the Viburnums; white flowers followed by immense clusters of bright red berries making entire shrub appear red. M 2 to 3 ft. \$1.75 | 3 to 4 ft., heavy. \$3.50 | 3 to 4 ft. 2.75 | Heavy Specimens. Priced on Selection

Viburnum plicatum (DOUBLE JAPANESE SNOWBALL). Showy white flowers in rounded clusters during June. Rich foliage and deep red coloring in the Fall. M 2 to 3 ft. \$2.25 | 3 to 4 ft. \$2.75

Viburnum prunifolium (BLACKHAW). Pure white flowers in May and June; blue-black fruits in late Fall. The vivid Fall foliage and the interesting patterns from irregular branching make this most desirable. F 18 to 24 in. \$1.75

Viburnum setigerum (TEA VIBURNUM). Large, compound white flowers followed by huge clusters of bright red berries. Probably most showy of all Viburnums when in berry. M 2 to 3 ft. \$2.00

VIBURNUM BURKWOODI 2-3 ft., \$7.50

Viburnum Sieboldii (SIEBOLD VIBURNUM). Vigorous shrub attaining great size. Pink berries changing to black. Large, deep green, leathery leaves. F 2 to 3 ft., B&B. \$1.50 | 3 to 4 ft., B&B. \$2.50

Viburnum tomentosum (SINGLE JAPANESE SNOWBALL). White flowers in profusion followed by red berries; foliage red in Fall. M 2 to 3 ft. \$1.75 | 3 to 4 ft. \$2.75 | 3 to 4 ft., heavy, B&B. \$3.50

✓ **Vaccinium corymbosum • HIGHBUSH BLUEBERRY**

A very desirable, bushy shrub with glossy foliage turning brilliant red in Autumn. Creamy-white flower. M 3 to 4 ft., B&B. \$4.50 | 4 to 5 ft., B&B. \$6.00

Vitex Agnus-castus latifolia • CHASTE TREE

A graceful shrub with spires of lovely lavender-blue flowers in profusion from July to frost. Dies back in Winter similar to Buddlejia. F 2 to 3 ft. \$1.25 | 3 to 4 ft. \$2.75

Weigela • WEIGELIA

Weigela, Bristol Ruby (An improved form of Eva Rathke). Hardier and more vigorous, developing to a more shapely shrub. Blooms are a soft ruby-red shading to garnet-crimson. F 2 to 3 ft. \$2.00 | 3 to 4 ft. \$2.50

HYBRID LILACS 18 to 24 in., \$2.25

W. Feerie. This graceful shrub produces an enormous profusion of delightful soft pink flowers. F 2 to 3 ft. \$1.50 | 4 to 5 ft., B&B. 4.00 | 5 to 6 ft., B&B. 6.00

W. rosea. Medium growth with rose-colored flowers in June. 2 to 3 ft., \$1.50 | 3 to 4 ft., \$2.00

W. Vanicekii. Similar to Bristol Ruby. A good bloomer, red flowers. 3 to 4 ft., \$1.75 | 4 to 5 ft., B & B, \$4.00

VIBURNUM DILATATUM 2 to 3 ft., \$1.75

WEIGELA VANICEKII 3 to 4 ft., \$1.75

HARDY CLIMBING VINES

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

CELASTRUS, BITTERSWEET

Celastrus • BITTERSWEET

Celastrus orbiculatus (ORIENTAL BITTERSWEET). Everyone knows and likes Bittersweet with its striking panicles of berries. Splendid for fences and rocks. Oriental variety differs from native only in that possibly it bears more berries. F 18 to 24 in. . . \$1.25 each, \$12.50 per doz.

Clematis

Clematis paniculata (OLD-FASHIONED CLEMATIS). The sweet September fragrance of this old favorite indicates its presence long before the flower laden vine is seen and the feathery seeds are also decorative. A real addition to the home. F 2 year. . . . \$1.00 each, \$10.00 per doz. 3 year, heavy potted. . . . \$1.50 each

C. Jackmanii (PURPLE CLEMATIS). Large, purple single flowers from June to August. Striking. M No. 1, 2 yr. . \$1.25 each, \$12.50 per doz.

6 inch
pots,
\$1.75 ea.

WISTERIA \$1.75 each

C. MARIE BOISSELET

MME. EDOUARD ANDRE

JACKMANII

- C. J. Mme. Andre.** Large red, single flowers throughout Summer. S No. 1, 2 yr. . . . \$1.25 each | 6 in. pots. . . . \$1.75 each
- C. J. Ramona.** Large lavender-blue single flowers throughout the Summer. S No. 1, 2 yr. . . . \$1.25 each | 6 in. pots. . . . \$1.75 each
- C. montana rubens.** The rosy-red Anemone-like flowers turn pink with age. Rich dark foliage; vigorous grower, reaching 15 ft. Hardy. F No. 1, 2 yr. . . . \$1.25 each | 6 in. pot. . . . \$1.75 each
- C. Marie Boisselet.** Large white single flowers with wine throat. Good grower. No. 1, 2 yr. . . . \$1.25 each | 6 in. pot. . . . \$1.75 each

HALL'S HONEYSUCKLE

TRUMPET CREEPER

BOSTON IVY

\$1.00 each

Campsis • TRUMPET VINE

Campsis radicans (TRUMPET CREEPER). Orange-scarlet, trumpet-shaped flowers in clusters from July to September; rapid grower but does not flower young. Must be supported. F 2 year. . . \$1.00 each, \$10.00 per doz.

POLYGONUM (Silverlace)

\$1.25 each

Euonymus

Euonymus Fortunei Coloratus (WINTER CREEPER). Outstanding for its dark purple leaves in Summer which turn rose color in Fall. Also useful as a ground cover. 10 to 12 in. 60c. each, \$6.00 per doz.

E. F. Kewensis. Tiny leaves marked white along the veins. Very dainty and effective. 3 in. pots. \$1.25 each

E. F. Radicans. Smaller, more pointed leaves with white veins distinguish this from the more rapid growing. E. F. vegetus. S 10 to 12 in. \$1.25 each 12 to 15 in. 1.75 each

E. F. Variegata. A very interesting form with leaves variegated white. Foliage turns a delightful warm rose color in Winter. 4 in. pots. \$1.25 each

E. F. Vegetus (EVERGREEN BITTER-SWEET). Low spreading shrub but will climb high on masonry walls. Orange berries. M 8 to 10 in. 75c. each, \$7.50 per doz. 12 to 15 in. \$2.25 each

Hydrangea Petiolaris

This Climbing Hydrangea is a superb vine having broad, handsome, overlapping foliage and delightfully fragrant panicles of white flowers in July. Climbs on any surface and is extraordinarily beautiful.

6 in. pots. \$2.50 each

IVIES

Hedera helix (ENGLISH IVY). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover. Plant in mass under trees or other shady or semi-shady locations. M 3 in. pots. 40c. each, \$4.50 per doz. 4 in. pots, heavy plants 85c. each, \$9.00 per doz.

H. helix baltica (BALTIC IVY). A hardy evergreen variety which withstands much lower temperatures than the English form. Small foliage. 3 in. pots. 50c. each, \$5.00 per doz.

H. Roumanian Ivy, Var. Hardier strain of English Ivy. Evergreen. 3 in. pots. 50c. each, \$5.00 per doz.

Parthenocissus quinquefolia (VIRGINIA CREEPER, or WOODBINE). This vigorous, handsome vine is particularly striking, with its Fall coloring. Especially recommended for walls and fences. F 2 yr. \$1.00 each, \$10.00 per doz.

P. tricuspidata veitchi (BOSTON IVY). Closely clinging vine with medium sized leaves, turning red in Autumn. Its rapid growth and close clinging habit, make it most popular for brick, stone, or stucco walls. M 2 year. \$1.00 each, \$10.00 per doz.

Lonicera • HONEYSUCKLE

Lonicera japonica Halliana (HALL'S HONEYSUCKLE). Semi-evergreen ground cover or vine, with fragrant, yellow and white flowers. Indispensable where thick, quick coverage is desired. F 2 year. 50c. ea., \$5.00 per doz., \$37.50 per 100

L. Hermanii. A bright, gay, heavy-flowering Honeysuckle Vine. Blooms are pink in bud, but open yellow to orange. 2 yr. \$1.25 each, \$12.50 per doz.

Polygonum Aubertii SILVER LACE

Slender, vigorous vine for arbor, trellis or fence. Curious silver-white flowers in tremendous profusion. F

2 year, field-grown \$1.25 each, \$10.00 per doz. 6 in. pots. \$1.75 each

Wisteria Sinensis CHINESE WISTERIA

Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. White and purple. M

2 year. \$1.75 each | 4 year. \$2.75 each
Larger Sizes Available—Priced on Selection

HEDGES and SCREEN PLANTINGS

The Friendly Way to Privacy

*Come to the Nursery - Select the Variety You Feel
Is Most Suited to Your Needs*

Hedges and Screen Plantings have many uses—and accomplish these purposes attractively from both sides. They give privacy, keep out sound, present a pleasing picture at the same time that they eliminate an unpleasant one, keep out the “wilderness” of uncultivated land surrounding your grounds, and they serve as a background for colorful gardens.

WE SUGGEST:

EVERGREEN TREES and SHRUBS

**For Permanent, Year-Round Screening
Hardy and Always Handsome**

TAXUS (*Yew*). The finest of hedge materials. Page 10.

HEMLOCK. Best all-purpose hedge. Page 12.

ARBORVITAE. Particularly valuable where narrow barrier is required. Page 11.

HOLLY. Thick, impenetrable, and unusual. Page 6.

JULIANA BARBERRY. Thorny evergreen. Page 5.

DECIDUOUS TREES and SHRUBS

PRIVET. Quick-growing, inexpensive. Page 30.

BARBERRY. Slower, informal (needs less trimming). Red berries in Fall. Page 26.

EUONYMUS Alatus Compacta. Dwarf, brilliant Fall color. Easily trimmed. Page 27.

SPIRAEA Vanhouttei. Medium growth and profuse flowering. Trims well. Page 31.

LILAC. Very informal and graceful. Should be trimmed very little. Page 31.

HAWTHORN (*Crataegus*). Ideal large, impenetrable barrier. Page 14.

PLANT MORE FRUIT TREES

Fruit trees are just as decorative as any ornamental and they provide wonderful shade also. Plant a fine Apple tree on your terrace — you will love its character and beauty there. Homeowners may now easily care for fruit trees with new, improved, simplified sprays and enjoy fruit, bloom, and leisure.

SMALL FRUITS

PLANTING SUGGESTIONS:

1. Plough or spade entire planting area to depth of 8 inches or more.
2. Open a narrow trench and mix a liberal quantity of Farmmanure in bottom of trench.
3. Insert plants 2 to 3 feet apart. Rows should be 3½ to 4 feet apart.
4. Replace one-half soil and tamp firmly, adding more Farmmanure.
5. Water thoroughly twice weekly until started.

FOR A FAMILY OF FOUR

We recommend the following number of plants, depending of course, on your appetite for fruit:

	No. of plants
Blackberries.....	1 dozen
Blueberries.....	1 dozen
Currants.....	6
Gooseberries.....	6
Grapes.....	4 to 10
Red Raspberries.....	1 to 2 dozen
Black Raspberries.....	1 dozen

PEARS

Selected, No. 1 Grade—2 Years Old
11/16 inch caliper—4 to 6 feet
\$2.00 each, 3 for \$5.50

- **Bartlett.** Most popular all-purpose Pear. Large, golden yellow. August-September.
- **Beurre Bosc.** Large russet type, white fleshed. Excellent quality and flavor. September.
- **Clapp's Favorite.** Like Bartlett—large yellow, but with brown flecks. August.
- **Sekle.** A most delicious variety produced in abundance. Small, russet. October.

PLUMS

Selected, No. 1 Grade—2 Years Old
11/16 in. caliper—4 to 6 ft.
\$2.25 each, 3 for \$6.25
Plant 15 to 20 feet apart

- **Abundance.** Large, very tender, sweet, juicy, good for canning. Early August. Amber, turning to red.
- **Burbank.** Large, Cherry-red Plum about mid-August. Good producer.
- **Reine Claude (Green Gage).** Large, and rich-flavored in early September. Cross-pollinate with Stanley or other American or European variety.
- **Stanley.** Large, deep bluish-purple about early September. Excellent, sweet flavor.

For Cross-Pollination:

Abundance and Burbank are Japanese varieties and should be planted together. Stanley, an American variety is self-fruitful. American and Japanese varieties do not mix.

ORANGE QUINCE

An excellent large, round, golden yellow fruit. Fine for jellies and jams. Self-fruitful. October. Plant 20 to 25 feet apart.

2 year.....\$2.00 each
Large Specimens, B&B.....\$20.00 to \$25.00

ALFRED BLACKBERRIES

Tremendously large berries from 1½ to 3¼ inches long, practically free from seeds and extremely juicy. Heavy.

2 year transplants. 6 for \$1.50, 12 for \$2.75

CULTIVATED BLUEBERRIES

For Extra Large, Juicy Berries of Delicious Flavor and Texture

Also, Blueberries make handsome landscaping plants with their compact, bushy form and colorful Fall foliage.

All plants are 3 years old, 1½ to 2 feet high, ready to bear.

Varieties:

Early.....Weymouth
Midseason.....Pemberton
Late.....Jersey, Rubel, Stanley

Each order will contain three or more varieties for cross pollination

\$1.40 each 3 for \$4.00 5 for \$5.50
12 for \$11.50

Larger Sizes Available -Priced on Selection

PLANT in hole large enough to accept roots spread out; mix plenty of peat moss or humus with soil; mulch

RED LAKE CURRANTS

Finest of all Red Currants; unusually large and superior in quality. Heavy yields.

2 year.....65c. each, 3 for \$1.75

POORMAN GOOSEBERRIES

A large, red Gooseberry of excellent quality. Prolific; midseason.

2 year.....90c. each, 3 for \$2.50

HARDY GRAPES

- **Caco.** Finest wine-red Grape of sweet, delicious flavor; large, early September. 2 yr. 75c. each.
- **Concord.** Blue-black, mid-September. Most successful in this area. 2 yr., 50c. each.
- **Fredonia.** Earliest and best black Grape. Hardy, productive, juicy. 2 yr., 50c. each.
- **Golden Muscat.** New, luscious golden yellow type; vigorous, productive. 2 yr., \$1.00 each.
- **Niagara.** Extra large, sweet, white Grape, about mid-September. 2 yr., 50c. each.
- **Portland.** New and largest white Grape, very good for this section; very early, about late August. Delicious. 2 yr., 50c. each.

2-YEAR-OLD APPLE TREES

The best size to plant for a good-sized orchard but will take 4 years or more to bear. Plant 30 feet apart.

Selected No. 1 Grade, 11/16 in. cal, 5 to 7 ft.
Each \$1.75

Superior Strains—3 for \$5.00

- **Baldwin.** Red, Winter Apple. Juicy, crisp, self-fruitful.
- **Cortland.** An all-purpose Winter Apple of improved McIntosh type. McIntosh flavor and quality but clings to tree more than McIntosh. Seldom needs a pollinizer.
- **Delicious, Red.** Large red Winter Apple of crisp, fine flavor. Cross pollinators: Cortland, McIntosh.
- **Delicious, Yellow.** Golden yellow Winter Apple. Firm, juicy. Self-fruitful.
- **Gravenstein, Red.** Red Autumn Apple. Crisp, tart. Self-fruitful.
- **McIntosh, Red.** Red Winter Apple. Tender, juicy. Bears fairly young. Cross pollinators: Cortland, Red Delicious.
- **Red Astrachan.** Crimson, Summer Apple. A favorite. Cross pollinators: McIntosh, Red Delicious.
- **R. I. Greening.** Large, yellow-green Autumn Apple, unexcelled for cooking. Self-fruitful.
- **Yellow Transparent.** Pale yellow Summer Apple; abundant bearer; excellent for cooking. Cross pollinators: McIntosh or Delicious.

RASPBERRIES

All 1-Year No. 1 Transplants
6 for \$1.65 12 for \$2.95

- **Bristol.** Highest quality, heavy producing Black Cap. Unexcelled for canning and freezing.
- **Indian Summer.** Red EVERBEARING of choicest flavor and quality. Produces in mid-June and again in early September. Hardy, vigorous.
- **Latham.** Delicious red berry; good texture. Heavy-bearing and hardy.

September. NEW RED EVERBEARING. Fine flavored, heavy producer. Hardy, vigorous.
6 for \$1.95 12 for \$3.45

CRABAPPLE

Selected, No. 1 Grade—11/16 in. caliper
5 to 7 feet—\$1.75 each, 3 for \$5.00

All these varieties are self-fruitful. Plant 15 to 20 feet apart.

- **Dolgo.** Handsome Red Crabapple in early September; hardy, productive, juicy. Superb for ruby-red jelly, pickling, and exceptionally good for cider.
- **Hyslop.** Brilliantly colored, purple-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo.

MOORPARK APRICOT

Large, round, orange fruit with red cheek. Rich flavored, juicy; self-fruitful. Plant 15 to 20 feet apart.

2 year, 11/16 in. caliper.....\$2.00 each

CHERRIES

1-Year-Old—11/16 in. caliper—4 to 6 feet—
Top Grade—\$2.50 each, 3 for \$7.00

Plant any two Sweet Cherries for cross pollination.

Plant Sour Cherries 15 to 20 feet; Sweet Cherries, 25 to 30 feet apart.

- **Black Tartarian.** Large, black sweet Cherry; juicy, very rich. Late June.
- **Governor Wood.** Large, light yellow and red sweet Cherry; very productive. June.
- **Montmorency.** Best sour Cherry; finest flavor; productive. July. Self-fruitful.
- **Schmidt's Bigarreau.** Very large purple red, sweet Cherry in July. Splendid flavor.
- **Windsor.** Delicious, large, almost black Cherry in July. Hardest Sweet Cherry.

PEACHES

Selected, 1-Yr. Budded Trees—9/16 in. caliper, 4 to 5 feet—\$1.50 each, 3 for \$4.00

All these varieties are self-fruitful. Plant 15 to 20 feet apart.

- **Belle of Georgia.** Favorite white freestone Peach, ripening late August.
- **Early Elberta.** Excellent, new yellow freestone. Late August.
- **Elberta.** Most popular yellow Peach. Juicy, freestone. Early September.
- **Golden Jubilee.** Best, early golden-yellow Peach. Freestone. Mid-August.
- **Hale-Haven.** Beautiful, hardy yellow freestone. About late August.
- **Valiant.** Juicy, yellow freestone like Elberta. Early September.

DWARF FRUITS

These excellent varieties provide same good quality and size of delicious fruit as the large, standard trees.

***APPLES:** Baldwin, Cortland, Early McIntosh, McIntosh, Northern Spy, Red Delicious.

2 year, 9/16 in. caliper—4 to 5 ft. \$3.75 each

PEARS: Bartlett, Clapp's Favorite, Duchesse d'Angouleme, Seckel.

2 year, 9/16 in. caliper—3 to 4 ft. \$3.00 each

LAWNS AND LAWN CARE

A good lawn must be fertilized liberally every Spring and every Fall and it is desirable to add an application of organic fertilizer during June or July. It is preferable to apply when the lawn is dry.

Lawns should be seeded in Spring or Fall

We recommend the following products to help you to obtain that most highly-prized part of the home grounds—a fine, green lawn.

LAWN SEEDS

ROSEDALE GREEN

This is one of the finest blends of grasses obtainable—especially designed to meet the exacting soil conditions of Southeastern New York State. This is a permanent lawn seed exceptionally free from weed seed. For best results, we recommend sowing 6 lbs. per 1000 sq. ft.

2 lbs. \$3.00 | 5 lbs. \$7.15 | 10 lbs. \$14.75 | 25 lbs. \$36.50 | 50 lbs. \$71.00

ROSEDALE'S ALL-PURPOSE LAWN SEED

This is a blend of excellent high grade seeds using both permanent and quick-growing grasses to give a quick coverage, with the permanent grasses filling in a little slower. This is a clean seed of good quality. Use at rate of 6 lbs. per 1000 square feet.

2 lbs. \$2.15 | 5 lbs. \$4.75 | 10 lbs. \$9.25 | 25 lbs. \$22.50
100 lbs. (four 25's) \$89.00

SCOTT'S LAWN SEED

For lawns in full sun, light shade. Triple cleaned 99.91% weed free. Use 1 lb. per 250 square feet.

1 lb. \$2.45
2½ lbs. 5.95
5 lbs. 11.75
25 lbs. 57.50
50 lbs. 115.00
100 lbs. 225.00

SCOTT'S SPECIAL SEED

Recommended for such locations as dense shade, poor, dry soils, terraces, playgrounds and other areas where growing conditions are not good and rugged turf is desired. Use 1 lb. per 200 square feet.

1 lb. \$1.45 | 25 lbs. \$34.50
5 lbs. 6.95 | 50 lbs. 69.00
100 lbs. \$135.00

SCOTT'S CLOVER

For thickening lawns on poor soil. Clover is not included in Scott Mixtures because it is better to sow alone. Use 8 ozs. per 1000 square feet.

Small box (for 2500 sq. ft.) \$0.95 | 5 lbs. \$8.65
Large box (for 5000 sq. ft.) 1.95 | 25 lbs. 42.50

LAWN WEED CONTROL and LAWN PEST CONTROL

SCOTT'S WEED AND FEED

A new, dry compound quickly applied with a spreader. Feeds grass as it destroys weeds. Use 2½ lbs. per 500 square feet.

Small box for 500 sq. ft. \$1.00
Box for 2500 sq. ft. 2.95
Bag for 11,000 sq. ft. 11.75
10 bags for 2½ acres. 99.50

SCOTT'S 4-XD WEED CONTROL

For destroying broadleaved weeds such as Dandelions, Plantain, Buckthorn without harm to lawn grasses. Apply dry as it comes in package. Use 14 ozs. per 500 square feet.

Small box for 500 sq. ft. \$0.49
Large box for 2500 sq. ft. 1.75
Bag for 11,000 sq. ft. 4.85
10 bags for 2½ acres. 39.50

SCOTT'S SCUTL—Doom to Demon Crabgrass!

Also controls fungous diseases and seedling sprouts of all weeds. SCUTL works slowly thereby destroying the crabgrass a little at a time without producing the usual unsightly browning of the entire lawn as is often the case. Apply dry in two applications. Double rate in July and August.

Small box treats 125 sq. ft. \$0.79 | Large box treats 500 sq. ft. \$2.75
Bag treats 1250 sq. ft. 5.45 | Jumbo bag treats 2500 sq. ft. 9.95

LAWN FERTILIZERS

SCOTT'S TURF BUILDER

This is the complete grass food and we recommend it highly. It is free from unpleasant odor, economical to use and easy to apply. Use 10 lbs. per 1000 square feet.

10 lbs. \$1.35 | 100 lbs. (in 50's) \$7.85
25 lbs. 2.50 | 500 lbs. (in 50's) 35.00
50 lbs. 3.95 | Ton. 125.00

AGRICO for LAWNS, TREES and SHRUBS

If you have a good lawn, keep it that way by feeding it with AGRICO every Spring and Fall. Use AGRICO in rebuilding lawns. Also, feed your trees and shrubs. Use 30 lbs. per 1000 square feet.

5 lbs. \$0.55 | 25 lbs. \$1.70
10 lbs. .95 | 50 lbs. 2.55
100 lbs. (two 50's) \$5.00

ORGANIC LAWN FOODS

ESPOMA

Listed and priced under foods for **FLOWERING TREES, SHRUBS**, etc., on page 38.

AGRINITE

Listed and priced under **EVERGREENS** on page 38.

GRO-WELL PULVERIZED COW MANURE

Free from weed seeds, this nutrient is beneficial for lawns. We suggest top dressing each month, except July and August, at rate of 8 lbs. per 100 square feet.

5 lbs. \$0.55 | 25 lbs. \$1.65
10 lbs. 1.00 | 50 lbs. 2.75
100 lbs. \$5.25

GRO-WELL PULVERIZED SHEEP MANURE

For lawns use at rate of 8 lbs. per 100 square feet. For prices please see listing under **GARDENS** on page 39.

AGRI-LIME

A finely ground limestone for lawns. This may be applied any time but preferably in Spring or Fall so lawn will be attractive in Summer months. Rate of application is approximately 50 lbs. per 1000 square feet and is usually applied only once in two or three years.

SCOTT'S PEST CONTROL

To keep in check Japanese Beetle grubs, Chinch bugs, etc.

Box treats 500 sq. ft. \$0.95
Box treats 2500 sq. ft. 3.50
Bag treats 11,000 sq. ft. 12.75

DU PONT CRABGRASS KILLER

Kills Crabgrass and Chickweed at any stage of growth. Easy to use; is non-toxic and non-corrosive. Recommended by lawn specialists.

7½ oz. Bottle (treats 750-1500 sq. ft.) \$1.00
30 oz. Bottle (treats up to 6000 sq. ft.) 2.95

DU PONT LAWN WEED KILLER

A 2,4-D selective weed killer for controlling lawn weeds. Especially effective under hot, dry conditions. Simply mix with water and spray to rid lawns of Dandelions, Wild Onion, Plantain and many other weeds.

8 oz. can. \$1.00 | 32 oz. can. \$2.95

SCOTT'S SPREADERS

Use a spreader for easy, economical application of seeds, fertilizers.

Junior Spreader \$ 7.95
No. 25 (For average lot, 16 in. spreading width. Rubber-tired) 12.85
No. 65 (Hopper capacity: for seed, 25 lbs.; for Turf Builder, 50 lbs. 20 in. spread—Rubber-tired) 19.50
No. 100 11.50

FERTILIZERS, PLANT FOODS PEST CONTROL • GARDEN TOOLS

To help you keep your plantings in good, thrifty condition, we offer the materials and treatments which we have found most effective, and which encourage good, vigorous growth with a minimum of effort.

As new and more effective materials are developed, we will have them available at our garden store.

We Offer This Handy Reference of Plant Foods for the Various Plant Groups

For Evergreens

Such as Pines, Hemlocks, Yews, etc.

For Broadleaved Evergreens

Such as Azaleas, Rhododendrons, Hollies, etc.

For Dogwoods, Oxydendrum, Blueberries, etc.

These are the so-called "Acid-Loving" plants.

For best results we suggest applying any of the fertilizers listed below while the ground is still frozen or when it has first thawed, in early Spring, with another application again in early Fall. During the Summer a slower-acting nutrient may be added, such as AGRINITE.

We recommend for feeding:

ROSEDALE "TAYLORED" PLANT FOOD

An excellent formula for immediate and LONG-LASTING effects. High organic content with added trace minerals make this food outstanding for permanent planting. A handful is adequate for a small shrub. Feed trees with 1 pound per inch of trunk diameter.

50 lbs.....	\$3.95	500 lbs.....	\$35.00
100 lbs.....	7.85	2000 lbs.....	125.00

HOLLY-TONE

This is an especially fine, all-organic fertilizer suited to acid-loving plants such as those listed above. Use approximately two handfuls per medium size plant.

10 lbs.....	\$1.35	25 lbs.....	\$2.65	50 lbs.....	\$4.25
-------------	--------	-------------	--------	-------------	--------

AGRICO for BROADLEAVED EVERGREENS

Although this was originally intended for Broadleaved Evergreens it has been found to be equally effective in its use on the needled Evergreens. Use approximately 1½ lbs. per 1000 running feet.

10 lbs.....	\$1.15
25 lbs.....	2.20
50 lbs.....	3.00

ROSEDALE "TAYLORED" PLANT FOOD

You will find full information on this complete, balanced diet for plants under EVERGREENS.

MULCHES

The use of a mulch is something which should not be overlooked. Mulches are extremely helpful in

1. Preserving moisture in the soil
2. Reducing weed growth
3. Reducing maintenance work and expense
4. Lightening heavy soils

The easiest mulching material is **Peat Moss**. We offer

IMPORTED HORTICULTURAL PEAT MOSS

Of clean, weed-free material in compressed bales.

Standard Large Bale.....	\$4.95
Junior Bale.....	3.50

AGRINITE

An all-organic fertilizer: 8¼% nitrogen, 100% organic. Easy to apply by hand or spreader. Use at rate of 4 lbs. per 100 square feet.

25 lbs.....	\$1.65
50 lbs.....	2.95
80 lbs.....	4.45

PLANT FOODS FOR SPECIFIC GROUPS—SPRAYS

For Healthy, Vigorous, Profuse, Blooming Roses

Roses are really easy to take care of although one wonders sometimes from the many things that have been heard if a 24-hour watch is not needed. We would like to dispel this frightening idea with simple directions for care.

Roses, like all plants, thrive on being well-fed. We recommend either **AGRICO ROSE FOOD** or **FARMANURE**. Mix this with the soil before planting new Roses or place on soil around plant and hose in.

AGRICO ROSE FOOD

Is an especially formulated plant food to supply the elements—both organic and inorganic—essential to the growing of finer Roses. We suggest applying at the rate of a good handful per plant.

5 lbs.	\$0.80
10 lbs.	1.30
25 lbs.	2.85
50 lbs.	5.15

FARMANURE

This also contains desirable elements for the growing of good, healthy Roses and we recommend its use at the rate of at least two double handful per plant.

25 lbs.	\$1.50	50 lbs.	\$2.25
---------	-------	--------	---------	-------	--------

Dusts and Sprays for Roses

Roses are the favorites of the Garden World and unfortunately some insects and diseases find them choice too. To combat this we advise a weekly **DUST** or **SPRAY**, using

DU PONT'S FLORAL DUST

This is a complete control of many insects and diseases affecting flowers and is especially effective on Roses. (Controlling such things as leaf spot, mildew, aphids, beetles, etc.) Comes in Dust Gun for easy application or may be mixed with water and sprayed on. This is **NOT** a major operation!

8 oz. Dust Gun.	\$0.89	1 lb. Sifter Top Can.	\$1.15
3 lb. Bag.	\$2.50			

MULCHING ROSES

Is particularly beneficial and desirable. A 2 to 3 inch application of Peat Moss will not only keep the roots from drying out but will eliminate to a large degree the weeding between plants. You will find Peat Moss listed under **MULCHES** on page 38.

RA-PID-GRO

THE FOLIAGE PLANT FOOD FOR ALL TYPES OF PLANTS

SAFE—EASY TO APPLY—FAST-ACTING

This remarkable balanced plant food may be sprayed on the leaves and absorbed quickly through the leaves or may be applied when watering plants and absorbed through the roots. **RA-PID-GRO** may be mixed and applied with most insecticides and fungicides—thus eliminating one entire spray process.

There is no danger of burning or overfeeding. It is very inexpensive.

Sample.	\$0.25	1 lb.	\$1.25
½ lb.69	2 lbs.	2.35
5 lbs.	\$4.50			

For Fruit Trees

Such as Apples, Pears, Peaches, Cherries, etc.

We all want fruit on our Fruit Trees as well as good foliage for shade purposes, as for example, an Apple Tree on a terrace. To help you obtain nice, well-formed, clean fruit, we suggest the use of

DU PONT'S FRUIT TREE SPRAY

For the control of many insects and fungous diseases. In powder form, it mixes easily with water for spray application.

1 lb. Canister.	\$1.15
3 lb. Bag.	2.50

For Flower and Vegetable Gardens

A beautiful flower garden is becoming more and more popular along with the increased interest in flower arrangements. Also, with the advent of a freezer in almost every home, fresh home-grown vegetables are more and more in demand. To help you obtain these desired results, we suggest using **AGRICO** for **GARDENS** as a plant food or one of the following:

AGRICO FOR GARDENS (5-10-5)

This is a special-purpose fertilizer for flowers and larger yields of vegetables. Rake in after spading soil before planting. After planting, make an application from time to time using 40 lbs. per 1000 square feet.

10 lbs.	\$0.95	50 lbs.	\$2.30
25 lbs.	1.70	100 lbs. (two 50's).	4.55

ESPOMA

This organic food, described fully with prices, under foods for Flowering Trees and Shrubs, etc., may be used successfully in Flower and Vegetable Gardens also.

GRO-WELL PULVERIZED COW MANURE

Where a natural organic fertilizer is needed, broadcast 10 lbs. per 100 square feet and rake into soil. Repeat two or three times during growing season. (Prices listed under **Lawn Fertilizers**.)

GRO-WELL PULVERIZED SHEEP MANURE

An organic fertilizer for gardens. We recommend it particularly for Peonies. Use 10 lbs. per 100 square feet. Rake in before planting and repeat two or three times a season.

5 lbs.	\$0.55	10 lbs.	\$1.00	25 lbs.	\$1.65
50 lbs.	\$2.75	100 lbs.	\$5.25			

DUSTS and SPRAYS

The two following sprays will probably treat effectively most all your problems where spraying is needed.

DU PONT'S FLORAL DUST

This is a complete control of many insects and diseases affecting flowers and is especially effective on Roses. (Controlling such things as leaf spot, mildew, aphids, beetles, etc.) Comes in Dust Gun for easy application or may be mixed with water and sprayed on. This is **NOT** a major operation!

8 oz. Dust Gun.	\$0.89
1 lb. Sifter Top Can.	1.15
3 lb. Bag.	2.50

ISOTOX GARDEN SPRAY

This year, in addition to Lindane, Malathion is included in this spray to make it a truly fine and complete insect spray. Will now control mites and red spider along with Japanese Beetles, Lacebug, Ants, Flies, etc.

4 ozs.	\$1.00	8 ozs.	\$1.75
16 ozs.	\$2.95			

DUSTS AND SPRAYS FOR SPECIFIC NEEDS

DU PONT'S TOMATO DUST

This is especially for the control of Tomato blights and insects. Use as dust or spray. Mixes easily with water.

8 oz. Dust Gun.	\$0.79	2 lbs.	\$0.98
-----------------	-------	--------	--------	-------	--------

DU PONT APHID-MITE SPRAY

A Malathion spray which will control Aphids, Red Spiders, Thrips, Beetles, Soft Scale, etc.

1 oz.	\$0.49	4 ozs.	\$1.25
-------	-------	--------	--------	-------	--------

METHOXYCHLOR

A top insecticide, which mixed with water, will control Japanese Beetles, most other types of beetles, and all types of worms.

8 ozs.	\$0.75
--------	-------	--------

FUNGICIDE A

A good general fungicide which will control Mildew, Leafspot, Anthracnose, Blights, etc.

6 ozs.	\$0.85
--------	-------	--------

DU PONT DORMANT OIL

The safest oil spray to use on all fruit trees, shade trees, shrubs, vines, and evergreens in dormant condition. Particularly effective against scale, aphids, red mite, etc. It is a miscible oil (will mix with water).

1 qt.	\$1.25
-------	-------	--------

AMMATE—Poison Ivy Killer

Get rid of Poison Ivy, Sumac and other noxious weeds easily—usually in one application.

Dissolve AMMATE in water and apply by spray or sprinkler.			
2 lbs.	\$1.15	6 lbs. \$2.95

50 lbs.	\$15.35
---------	-------	---------

FOR A BETTER GARDEN

NATURAL HUMUS

A screened Natural Humus full of plant food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting to better the soil where top soil is poor. Sold in bulk.

Developed by the Monsanto Chemical Co. for home gardens and lawns to make the soil loamier.

KRILIUM should be worked into the soil. It can be used at any time of year when convenient to prepare soil for planting.

5 lbs. will treat a 40 sq. ft. area to a depth of 6 inches

5 lbs. will treat a 80 sq. ft. area to a depth of 3 inches

1 lb.....\$1.39 | 5 lbs.....\$4.95

WILT-PRUF

The Revolutionary Plastic Latex Spray for Summer Transplanting

This NEW method of spraying plants so that they may be moved in hot weather in full leaf has been developed and used successfully for the past four years at Rosedale. By coating with a very fine film of plastic latex, which dries colorless on the plants, loss of moisture is radically cut down until new roots are grown and the plant becomes re-established in its new location.

The wilt and loss normally suffered from plants in full leaf is done away with.

By using this method on our stock our planting season is greatly extended and we can continue planting through the Summer—a real help to those of our customers who are unable to get to their country homes and gardens early in the Spring.

This coating is entirely non-toxic and is hardly discernible—showing only a slightly glossy sheen on the foliage. You will be delighted with this wonderful advancement in the handling of plant materials.

WILT-PRUF is packed in one gallon, five gallon and fifty-two gallon containers and is distributed nationally to the nursery trade. May be shipped from Eastview, New York, or many other points throughout the United States. *Descriptive circular on request.*

**Keep Surface Soil Loose
Water Thoroughly Twice Weekly**

Prices Subject to Change Without Notice

FOR REPELLING PURPOSES

SCRAM—DOG REPELLENT

A new, effective dog repellent to prevent damage on valuable ornamentals, lawns, gardens, etc.

8 ozs.....\$0.59

We have used this material in the nurseries and found it very effective.

1 gal. (9 lbs.).....\$7.20 | 5 gals.....\$33.75

Garden Tools and Accessories

We suggest that you visit our Garden Store and look over our gardening aids—tools, labels, plant-ties, sprayers, spreaders, etc. These have been carefully selected, bearing in mind the practicality of the item for home use.

PLANT PROPS

Help your plants to hold up their heads! These permanent metal supports are of baked green enamel finish and fit into the garden inconspicuously. They are economical and may be saved from year to year.

30 in., per dozen...\$1.75
42 in., per dozen... 2.10
66 in., per dozen... 3.50
78 in., per dozen... 5.50

G. S. SPRAYERS

For all ordinary spraying functions in the garden. The superiority of this sprayer is evidenced by its construction—100% brass, all parts machined, no solder used—thus eliminating leakage. Equipped with an adjustable nozzle goose neck extension thus making it not only possible but simple to reach difficult places to be sprayed—like the underside of foliage.

G. S. "MASTER" Sprayer (will throw a spray 35 to 40 ft.).....\$8.95

G. S. "JUNIOR" Sprayer (smaller but similar to "MASTER")... 6.95

HUDSON SPRAYERS

We have a complete list of **HUDSON SPRAYERS** on display at our Garden Store and we invite you to inspect them and select one most suitable to your needs.

GUARANTEE

The success or failure of all living things, including plants, depends upon their care. Good soil and sufficient water are necessary for plants to live.

In consideration for adequate care of all plants purchased from us, we guarantee:

All nursery stock to be in first class condition when delivered to the customer. Please advise us promptly of any damage or loss in transit.

Our nursery stock to be true to name. Should any label be untrue we agree to replace the stock or refund purchase price at the customer's request.

We will replace at one-half the purchase price any woody plants which, if planted in the Spring, fail to survive through the Summer, or, if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above, *plus the cost of planting.*

GENERAL INFORMATION

HOURS: Mondays through Saturdays — 7:30 a.m. to 6 p.m.

Sundays and Holidays — 9 a.m. to 5 p.m. (Open Sundays from March 14, 1954 through July 4, 1954)

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value.

TELEPHONE: PLeasantville 2-1300

Although authorities differ we have tried to give you the consensus of opinion in coding our plant material as to speed of growth: S—Slow-growing; M—Moderate-growing; F—Fast-growing. Opinions and recommendations are based on growing habits observed in our nurseries. Appropriate allowances must be made for variations in climate, temperature, exposure and elevation even within Westchester County.

MAIL ORDERS

Orders by mail are given prompt attention. The same care is given such orders as though you were selecting them in person. Shipments are made by parcel post, express or freight for all plants except those requiring a ball of earth and all shipping charges must be borne by the customer except where otherwise noted.

No Mail Orders can be accepted for less than \$5.00 except on Bulbs.

No C.O.D. shipments will be made unless order is accompanied by a 25% deposit.

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value. The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times.

Please be sure to give correct shipping address and instructions.

Please address all mail orders and communications to our Post Office Address—EASTVIEW, NEW YORK.
